DISCOVER
A NEW
WORLD OF
OPPORTUNITIES

رَّبِّ زِدْنِي عِلْماً

“O my Lord!
Increase me in
my knowledge!”

QUR’AN 20:114

اَللّٰهُمَّ اِنِّي أَسْأَلُكَ عِلْماً نَافِعًا

“O Allah!
I ask You
for knowledge
that is of benefit”

Why should I be interested in continuing my studies at Institute/University?

As you leaf through this prospectus, the likelihood is that a number of questions will be racing through your mind: Where do I go from here? Which course should I choose? What will I get out of it? How many career opportunities may present themselves once I complete it successfully? More often than not, you will find that the answers to questions like these can be found by discussing your career aspirations with your nearest and dearest as well as with professionals in the particular field or sector you are interested in. For some of you, the way forward has always been clear. For others, however, the process of distinguishing which path to take requires more thought. It can also happen that, even after completing a course, some may remain unsure what to do next. In itself, this is not necessarily a bad thing because it may serve as a springboard to be creative and use the skills acquired and apply them in different circumstances. In the fast and ever-changing globalized world, we live in, matching graduates' qualifications and skills to the demands of the working world calls for you to keep an open and creative mind. The years you will spend at ISP should not be just about acquiring academic credentials, but most importantly, about being open to learning experiences that will provide you with the opportunity to link such credentials to the particular interests and the reality you live in. A good balance of academic credentials, flexibility and a willingness to explore new grounds could be a winning formula towards a fulfilling career that will give you the chance to be a catalyst for change, and ensure success for yourself and for society at large. At ISP you can rest assured that you will find the support you need as you start your journey towards the discovery of that knowledge, that is rewarding in its own right, and the fulfillment of your aspirations.

MESSAGE

Sardar Saleem Haider Khan
Honorable Governor of Punjab
Patron
Institute of Southern Punjab
Multan

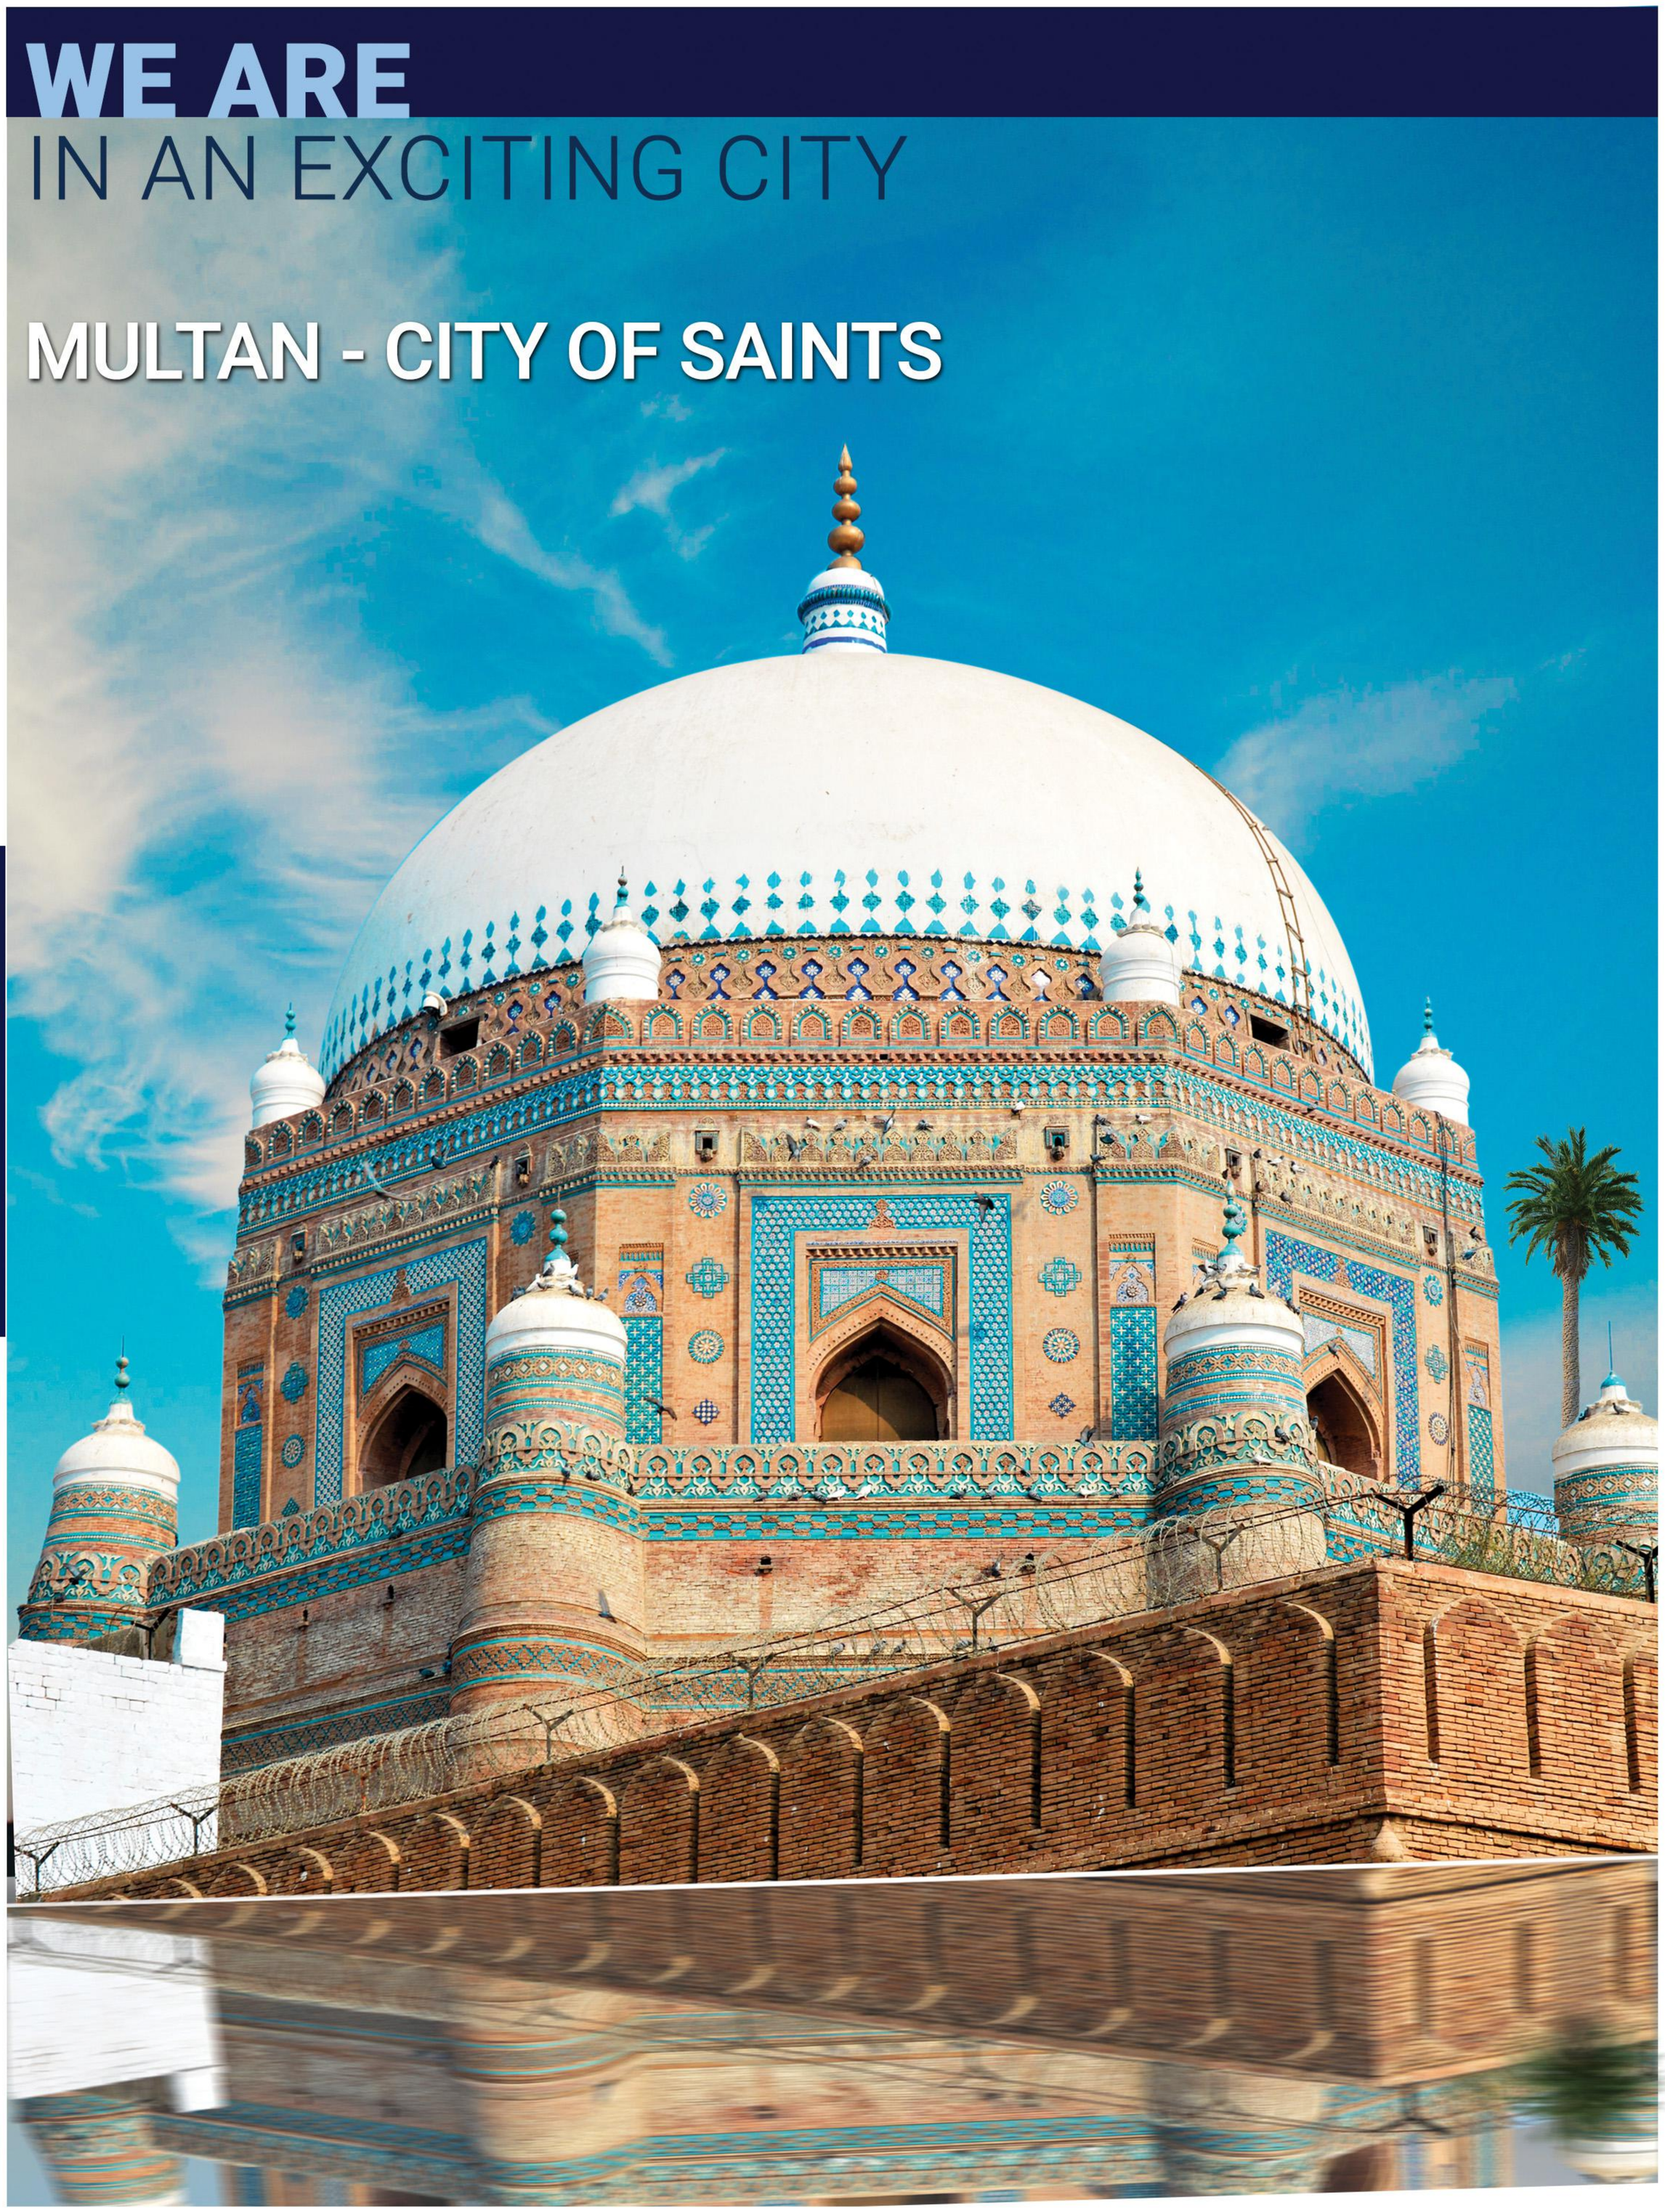
I feel immense pleasure and pride to see that the Institute of Southern Punjab, Multan is making tireless efforts to educate the society in an area that needs it the most. It is reassuring to observe that the institute is well mindful of equipping its students with knowledge of high quality with special focus on research and development by inculcating in them skill, vision, resourcefulness, initiative and perfection. Such motivating & innovative program shall enable the students to make their mark in the fiercely competitive world with courage and confidence.

The vision & mission of the institute to ensure improvement at a desirable level of quality is praiseworthy and to attain credibility of the public that the Institution is a premier place of learning is admirable. Private institutions have been recognized the world over as an important sector of social service to the community. Institute of Southern Punjab is one of them running purposeful academic programs and producing highly skilled professionals in multiple areas of education.

I hope that the Institute will continue to ensure best quality in teaching, learning and research. I wish this Institute success in both present and future.

WE ARE
IN AN EXCITING CITY

MULTAN - CITY OF SAINTS



MULTAN

An Overview:

The ancient city of Multan is the sixth largest city of Pakistan as well as the historical city too. Multan has been remembered in the history with several names such as city of gold,city of peace and lately city of saints and mausoleums, which is still the identity of this city.Multan is one of the oldest cities in the Asian sub-continent.It is in the valley of river Indus and is located on the left bank of river Chenab, one of the tributary of Indus. Its current name is derived from the Sanskrit name Mulasthana named after a sun temple. Modern Multan was founded by the Sufi Saint Syed Shah Yousaf Gardez upon his arrival from Gardez Afghanistan and now also known to be City of Saints or Madina-tul-Auliyah. The city of Multan is in southern Punjab province at almost the exact center of Pakistan. The area around the city is a flat, alluvial plain and is ideal for agriculture, with many citrus and mango farms. Multan's inhabitants are called Multanis. The majority of Multan's residents speak Saraiki which is the northern variant of Sindhi.Today, there are 'two' Multans, one is the city of inordinate glory and unique architectural style, having Agha Khan International Architecture Award winner Shrine of Saint Shah Rukn-e-Alam,and shrines of Bahauddin Zakariya while other is the new developed city spread over 50 square kilometer. This city has also many other shrines of religious, architectural, and historic values and it is also the city of landmarks, like the newly constructed building of State Bank of Pakistan. It is a city of calligraphers, Textile Manufacturers, writers, poets and actors who make difference in the life and outlook of others. Keeping part of its historical and cultural heritage intact, Multan has accepted the modern trends. People still like to eat Doli Roti, DaalMong that is serving on tree leaves, specially cooked Sohanjna (curry) and TabakhikeBor (curry). Needlework onDopatta (headscarf for women), golden work on Khussa (sandals), items made of clay, camel skin work and SohanHalwa are very popular .At the same time the blue pottery, glazed tiles, cotton sheets, bed spreads, and towels of Multan are in great demand in Pakistan and abroad.Culturally, Multan is very much different from other districts of the former Punjab, although some ways of life and even language differs from the other districts.

04

MULTAN

Multan has its own culture, traditions and customs. Excess of feeling for the welfare of the relatives and friends, hospitality and sincerity in one's dealings with other people, is the distinguishing mark of Multani culture. People greet each other warm-heartedly and make profuse inquiries about the welfare of the other person, his family and relatives. Improvement in communications and the extension of perennial canal irrigation have undoubtedly had an effect on the overalloutlook .Multan is famous for various types of souvenirs, MultaniKhussa (shoes), embroidery work of all types, thread and 'Aar' work costumes for ladies, embroidered cloths cholas or kurtas "for men" painted and glazed earthen pottery. Camel skin products, carpets and lacquered wooden products etc. are available in the narrow colourful bazaars. The local handicrafts available in Main shopping centres, these are Bazaar HussainAgahi, Chowk Bazaar, Bohar Gate, Haram Gate, Delhi Gate, Lohari Gate and Pak Gate Bazaars in the old city and the Cantonment shopping areas. Other than that, Multan is known for its traditional hand-embroidered clothes for women and kurtas for men. Multan has this mystical aura that enriches your spirit and really brings you to think about the religious and spiritual nature of the Pakistani people.

OUR Vision

To become a leading institute of learning by creation and dissemination of knowledge for sustainable socio-economic development and technological advancement of the country ant the world, at large.

OUR Mission

The institute will produce highly qualified and committed individuals who will play a leading role in the sustainable development of the region and the country. The human resource, thus produced will be equipped with the necessary knowledge and skills to act as solution provider for many issues of the region and the country while respecting the ethical values.

CORE VALUES

Tarbiyat: We believe in inculcating the beliefs and integrity through transforming the individual into a better human being exclusively, socially and professionally by providing them scholastic and customized trainings and advisory services.

Leadership: We are committed to exercise leadership characterized by innovation and vision. We believe in making our students the leaders of tomorrow century by providing them trainings and platforms.

Academic Excellence: We value excellence in teaching, training, service and research. We are committed to promote creative and critical thinking among faculty, students and staff.

Quality: We are providing educational programs that lead to the acquisition of knowledge and skills necessary to achieve literacy, career advancement, personal enrichment, leadership, and service to the community.

Social and Ethical Responsibility: We value honesty, fairness, respect, compassion, and professional ethics among faculty, staff and students. We are committed to increase access to opportunity and promoting social justice.

Diversity : We value respect for cultural, individual and role difference, including age, gender, race, ethnicity, national origin, religion, sexual orientation, marital status, family configuration, disability, language, philosophical orientation, and socioeconomic status among others. We are committed to continuous critical reflections of self and practice central to the true spirit of diversity.

Communication and Collaboration: We value open communication and collaboration within and across organizational units and with our external communities. We are committed to maintain a spirit of community where differences of opinion are encouraged.

Student Oriented Culture: We exhibit behavior, perform duties and make decisions that demonstrate and support the importance of students as the primary constituency of the university and contributes directly to student success

Professional Development: We take actions to continuously advance and improve in one's academic or professional discipline; as an individual contributor; as a team member; and as a leader by providing international standard trainings to not only the institute but also for community at large.

Innovation and Flexibility: We provide and encourage new ideas that could make the department and university even better organization. Open to, and adapts well to change.

The Focus of our Philosophy

The Institute of Southern Punjab Multan known and pronounced as **ISP** is the **first & pioneer institute** in private sector in Southern Punjab striving to promote education of in this area that ranks at the lowest in literacy race. The manifesto of Institute of Southern Punjab is to ensure academic excellence and to provide our students highest quality. The essential outline of our philosophy is to employee modern methods and approaches to enable the students to conform to international standards with the blend of Islamic ethics and behavior. ISP is leading provider of state-of-the-art education to the learners so they are trusted for their integrity and possessing highest standards. ISP shall concentrate on human growth and development to enable students to become responsible & productive members of the Institute community and society. To meet the ever changing and increasing requirements of the society, it is in the same spirit that Institute of Southern Punjab endeavors to be opened to change, seeks to adapt, innovate and keep in step with the goals that society expects of it.

We believe that through concerted and strenuous strives; our students shall be able to step forth in to the real and highly competitive world with the ability to make mature judgment based on a clear understanding, concept and moral values.

The ultimate goal, Manifesto, and strategy of Institute of Southern Punjab is to enhance institutional performance through continuous improvement in teaching, learning and research.

These measures will enable the institution to make its best contribution towards the developments of its students as well-rounded personalities and as productive members of the society and the world.

WELCOME TO

INSTITUTE OF SOUTHERN PUNJAB, MULTAN

Thank you for considering

Institute of Southern Punjab (ISP) as the next step of your journey.

Over the coming pages you will learn more who we are, what we do and how we can work with you to help fulfill your aspirations.

Choosing to go to an Institute/University is a major decision. At ISP we are committed to ensuring that you have an outstanding experience that should give you an edge when you graduate.

We pride ourselves on working with each and every student to develop a tailored experience.

Our most important asset is our students. They come from a wide range of cultural background, vary greatly in age and cover a number of sects. Our buildings are equally diverse, ranging from the historic to the ultra modern.

This, combined with a multitude of course options, makes ISP a unique institution giving you, as a students, access to experience and opportunities which you would find difficult to get elsewhere.

The quality of the courses we offer is of paramount importance to ISP.

We have rigorous systems in place to continually monitor and evaluate the quality of our students experience at ISP which gives students an opportunity to directly influence what we do and how we do it.

We are continually striving to invest in our provision for students so that you can always be assured that you are getting value for money.

This investment includes developing new and innovative courses and programmes and updating the more traditional courses.

Being the pioneer and largest Chartered Degree Awarding Institute (DAI) in Southern Punjab Region, we have a range of opportunities for you to take advantage of, but we will work with you to support you in choosing your direction.

We have top class teaching and learning facilities and are constantly investing to ensure that your time at ISP is enjoyable and rewarding.

We welcome you once again...!

RESERVED FOR ISP

WE ARE
INSTITUTE OF SOUTHERN PUNJAB (ISP)

Years back, an Institute in Multan under the name of "Institute of Southern Punjab, Multan" was proposed to be setup with all eagerness, enthusiasm and visionary zeal and zest by the Marjan Educational Trust (Regd) Islamabad purely to cater the needs of professional education in this belt of Southern Punjab. The establishment of this proposed institute in private sector was a need felt by educationists in this part of Pakistan.

The region of Southern Punjab is lagging behind in literacy race. It is densely populated having more than 50 million people. The students of this belt now do not have to leave their homes in pursuit of their quest for higher education.

There is no institution with Degree Awarding status in the private sector throughout the region.

Only two public sector universities namely Baha-ud-Din Zakariya University Multan and Islamia University Bahawalpur are obviously hardly capacitated to cater to the ever increasing educational needs of the belt.

Sponsor of the Project

Institute of Southern Punjab, Multan was setup under the banner of Marjan Educational Trust (Regd) Islamabad a chief supporter, financier and sponsor of the project whereas it would be the provider of new innovation in technology and incumbent to revive and rejuvenate of Muslim heritage to its rightful place in today's modern world under the auspices of the present Government.

The Trust provides good governance because of vast experience at its credit to run a number of top slot institutions from tertiary to university level very effectively & smoothly in the country. The proposed Institute will be backed up by the technical and financial support of other institutions of the Trust and indigenous and foreign universities.

WE ARE FOCUSED ON YOUR CAREER

By the grace and benevolence of Almighty Allah, Institute of Southern Punjab, Multan has been chartered and adorned with the status of Degree Awarding Institute (DAI) through legislation by the Government of Punjab and accredited by the Higher Education Commission (HEC) Govt. of Pakistan which is the highest federal body to look after the affairs Degree Awarding Institutes and universities in Pakistan.

• The Higher Education Commission Govt. of Pakistan has placed the Institute in the top most academic category of “W” on evaluating its overall performance in academic and management areas for devising research oriented mechanism in framing its optimum program strategy of Higher Education matching up with National standard which is considered a milestone of excellence.

• The program strategy of Institute of Southern Punjab, Multan is to provide Higher Education which offers opportunities of unique qualities at reasonable and affordable cost.

• ISP is committed to enhance employment avenues and to reveal the hidden potential of our students.

• ISP will fulfill its responsibilities and obligations to the society by enhancing professional growth of the students.

• ISP has a constant focus on development of curriculum and infrastructure matching with the needs of the day.

• ISP is a center of excellence for all things including moral values, ethics and knowledge systems for fostering attention on commitment to service.

• ISP is launching multiple disciplines in the area of Management Sciences, Commerce, Social Sciences, Humanities, Applied Technology and Engineering Technology.
• ISP is providing quality teaching in an ideal and conducive environment with emphasis on establishing strong links with industry that would make available good opportunities of employment to our graduates and enable them to step forward in the highly competitive world.
• Our multidimensional strategy focuses on developing social responsibility among students so that they become an asset for the Nation.
• ISP is committed to persuade quest for truth, academic integrity, justice, prudence, fortitude and compassion for comprehensive growth of its students intellectually, spiritually and socio-culturally.
• ISP provides sustainable Higher Education opportunity of highest quality in diverse fields of emerging sciences at international standards within our cultural framework to achieve academic excellence through quality management, quality training and quality teaching, good governance, professional development of students focusing individual care attention to each student for the benefit to our students, the country and the world in which we all live.
• ISP has diverse & dynamic components of research oriented activities.
• ISP is determined to develop its scholars who may be creative innovative discoverers and trend setters and form their minds that can be critical and capable of doing new things.
• Institute of Southern Punjab, Multan shall continuously do its best to upkeep its outstanding performance for advancement & dissemination of knowledge by teaching, consultancy and research.

We are confident that our prospective students will make the right decision by choosing ISP which offers its students diverse & dynamic study options.

ISP Endeavors for Internationalization of Higher Education

• That the Institute is taking exhaustive measures to improve its academic structure matching with that of international standards.
• That it continuously endeavors to develop academic and educational cooperation with other international universities of repute to build-up excellent understanding among nations.

• That it has developed collaborative activities with the following universities in the academic areas of mutual interest on the basis of equality and reciprocity like.

i) Ataturk University, Erzurum, Turkey
ii) Cumhuriyet University, Turkey
iii) Abdelmalek Essaadi University, Tetouan, Morocco, Turkey
iv) International University Council, Turkey
v) London Metropolitan University, London

• That it has signed Memorandum of Understanding with the said Universities to boost an emergence of academic excellence in the world besides establishing a cross cultural relationship.

• It will further develop academic, scientific, technical and cultural relations between these great centers of learning.

• That ISP achieved ISO 9001-2000 for fool-proof Quality Management System.

• Spacious Air Conditioned Lecture Rooms

• Embellished Computer Labs comprising latest Computers with Internet Facilities.

• State-of-the-art Library equipped with more than 10000 books.

In addition, the Institute has monthly subscription of more that 30 journals, Magazines and News Letters.

• Spacious Conference Hall
• Examination Hall
• Common Rooms for staff and students
• Career Development Centre(CDC)
• Cafeterias
• Spacious Car Parking
• Vast Lush Green Open sitting area for students
• Stationary and Photo Copy Facilities
• Mosque
• Executive Council
• Indoor, Outdoor Sports Facilities

Main Campus

The Governing body of the Marjan Educational Trust (Regd.) Islamabad, took measures to purchase a suitable piece of land for the permanent campus for the Institute of Southern Punjab, Multan, and succeeded to purchase

35 Acres (280 Kanals) of land for the Institute of Southern Punjab Multan, land was transferred / registered in the name of Marjan Educational Trust (Regd.) Islamabad.

The construction of the main campus has been completed in the shape of Academic Block I, II, III & IV besides the Administrative Block . The campus is housed in a constructed area of about 700,000 Sq. feet spread over 16 acers (128 Kanals). Purpose built campus is splendid, magnificent, elegant and graceful, spacious, air-conditioned lecture theaters, embellished computer lab, state-of-the-art library, conference / examination hall, faculty / common rooms, career advisory cell, commodious cafeteria, lush green open big lawns, executive council student's forum, indoor. Outdoor facility and spacious car parking are improvised for. It is located on the Bosan Road (Bahauddin Zakariya University Road) which is bench mark of educational scenario as most of the prominent institutions of Multan are situated on this road.

Fortification of Facility / Infrastructure

The Institute has its mandatory obligation to fortify, strengthen & reinforce the available facilities and infrastructure in both the campuses to the best of its resources for teacher, taught and administrative staff worthy to the level of Institute of Higher Education in private sectors during the coming decade likely to be counted from the issuance of Degree Awarding Status in the following three phases.

1- Phase First Year 2010-2012

2- Phase Second Year 2013 to 2015

3- Phase Third Year 2016 to 2019

First Phase covering the period 2010-2012 prior to grant of charter as pre-requisite the Institute of Southern Punjab, Multan already stood registered with the Education Department under the authority of DEO Colleges Multan. It is also affiliated with Board of Intermediate & Secondary Education Multan & Bahauddin Zakariya University Multan by the grace & benevolence of Almighty Allah Institute of Southern Punjab, Multan was chartered by the Govt. of Punjab vide act no. XIV/2010 on 21 July, 2010 and notified in the Punjab Government Gazette (Extra Ordinary) on 02 August, 2010 and accredited by the Higher Education Commission Govt. of Pakistan which is the highest federal authority to look after the affairs of Degree Awarding Institutes / universities in Pakistan.

The Institute endeavored to strengthen its paraphernalia of infrastructure / facilities during First Phase. It will also ensure academic excellence and to provide education of highest quality to the students. The Institute shall provide instruction and training in the faculties of:

i) Management Sciences
ii) Social Sciences
iii) Humanities
iv) Engineering & Applied Technology
v) Natural Sciences
vi) Arts & Design

1- Phase Years 2010-2012

During the tenure of current phase it will deploy modern methods and approaches to enable the students to be highly knowledgeable directing education system inconformity with international standards with the blend of Islamic ethics and behavior indigenous values and traditions found here. We shall make the Institute as leading provider of state-of-the-art education to the learners so they are trusted for their integrity and possessing higher standards.

It will also concentrate on human growth and development to enable the students to become responsible and productive members of the Institute, community and society to meet the ever changing and increasing requirements of the society, it is in the same spirit the Institute of Southern Punjab, Multan shall endeavor to be open to

change, seek to adept, innovate & keep its steps with the goal that society accept of it. We believe that through concerted and strenuous efforts; our students shall be able to step forth in the real and highly competitive world with the ability to make mature judgment basing on a clear understanding, concepts and moral values.

2- Phase Years 2013-2015

Request for Grant of University Status with Nomenclature Southern University of Multan. During this phase the Institute will take all necessary steps towards the developments of its students as well rounded personalities and useful member of the society and the world where we live. The management of the institute will take all steps to develop and strengthen & build up its facility and infrastructures worthy to the university level. We shall comply with all the norms and criteria laid-down by the Higher Education Commission Govt. of the Pakistan and Education Department Govt. of Punjab for up gradation the status of the Institute from Institute to University of Southern Punjab for this purpose necessary feasibility report has already been prepared in accordance with the latest norms & criteria of the Government of Punjab & Higher Education and the same is being forwarded to the Higher Education Commission for the up-gradation of the INSTITUTE OF SOUTHERN PUNJAB, MULTAN to SOUTHERN UNIVERSITY, MULTAN On attaining and acquiring status of university it will enjoy mandatory obligation to strive constantly to develop civic responsibility among students to transform them as good citizen.

To maintain fairness in all walks of life would be our focus strategy to garner & gain good reputation. Up-graded Southern University of Multan will develop the present faculties and also manage facilities and infrastructure for the development worthy to the level of establishment of the Department Engineering and Pharmacy during second phase and necessary case shall be vetted and submitted to the Higher Education Commission / Pharmacy Council of Pakistan and Pakistan Engineering Council for their approval.

The upgraded SOUTHERN UNIVERSITY, MULTAN shall promote newness in all educational matters to measure up to the hope and inspirations of the new generation.

We shall provide education to our students to shine and excel their personality and inculcate in them the sense of responsibility, confidence, commitments & dedications towards their profession, society & nation and to produce quality professionals and well skilled human capital in all areas of education for service of humanity.

3- Phase Year 2016-2019

During 3rd Phase of our future vision we shall develop and fortify our facilities and infrastructure matching with the standards at international level. We shall emphasize that learning community must rely on both classroom teachers and library, each whom are the wings help to soar to the highest of the high. It will comply all the norms and criteria laid-down & prescribed by the Higher Education Commission Govt. of Pakistan and shall place our request with high ups of the Pakistan Medical & Dental Council for the launching of the department Medicine & Dentistry.

The ultimate goal, manifesto & strategy of the institution shall be to enhance institutional performance, in alignment and configuration with the Institute's Vision, Mission & the Values, through continuous improvement in facilities infrastructures teaching, learning and research, community engagement and associated support services and weaving past with future.

WE ARE PASSIONATE ABOUT YOUR LEARNING

As a largest, progressive Institute, our main focus is teaching. If you come to ISP, you'll get a fantastic learning experience.

The Institute of Southern Punjab Multan known and pronounced as ISP is the first & pioneer Institute in private sector in Southern Punjab striving to promote education of higher learning in this area that ranks at the lowest in literacy race. Establishment of ISP would prove blessing in disguise for the inhabitants of Southern Punjab. The manifesto of Institute of Southern Punjab is to ensure academic excellence and to provide our students highest quality. The essential out line of the Institute of Southern Punjab philosophy is to deploy modern methods and approaches to enable the students to be highly knowledgeable and conform to international standard with the blend of Islamic ethics and behavior. ISP is leading provider of state-of-the-art education to the learners so they are trusted for their integrity and possessing highest standards. ISP shall concentrate on human growth and development to enable students to become responsible & productive members of the Institute community and society.

MEETING THE CHALLENGES OF TIME

To meet the ever changing and increasing requirements of the society, **Institute of Southern Punjab** endeavors to be opened to change, seeks to adapt, innovate and keep in step with the goals that society expects. We believe that through concerted and strenuous strives; our students shall be able to step forth in the real and highly competitive world with the ability to make mature judgment based on a clear understanding, concept and moral values.

The ultimate goal, manifesto, and strategy of Institute of Southern Punjab is to enhance institutional performance through continuous improvement in teaching, learning and research.

These measures will enable the institution to make its best contribution towards the developments of its students as well-rounded personalities and as a productive member of the society and the world.

VICINITY OF MAIN CAMPUS

Land

Governing Body of the Marjan Educational Trust (Regd.) Islamabad took strenuous measures to acquire a suitable piece of land for the permanent campus of Institute of Southern Punjab, Multan. The management succeeded to purchase and procure 35 Acers More than (280 Kanals) land for the permanent campus and the same has been transferred / registered in the name of Marjan Educational Trust (Regd.) Islamabad. The commodious purpose built Campus of ISP is housed in a constructed area of about 700,000 square feet possessing spacious, air-conditioned lecture theaters, embellished computer lab,state-of-the-art library, conference/examination halls, facility / common rooms, career advisory cell, roomy cafeteria, lush green lawns and verdant surroundings, executive council students forum, indoor. Outdoor facilities and spacious car parking are provided for students and teachers.

Location

The Main campus is located at 09 Km from Chungi No. 9 Bosan Road which is the hallmark of educational scenario as most of the prominent institution of Multan are positioned on this road in queue like LaSalle High School, Govt. Comprehensive High School for Boys / Girls, Govt. Degree College Bosan Road, Science College, Punjab Group of Colleges, Leadership College, Beaconhouse School System, ICMAP and Bahauddin Zakariya University Multan. The location of the permanent splendid, graceful and elegant premises of the Institute is quite ideal being situated among educational empire adjacent to the Bahauddin Zakariya University where facility of public and private transport is available with ample options from all directions of the city from dawn to dusk. The above said site is around 1.5 Km from Bahauddin Zakariya University Multan well-planned infrastructure of buildings, parking, roads, trees and plantation of a wide variety of foliage would adorn to the landscape of Campus.

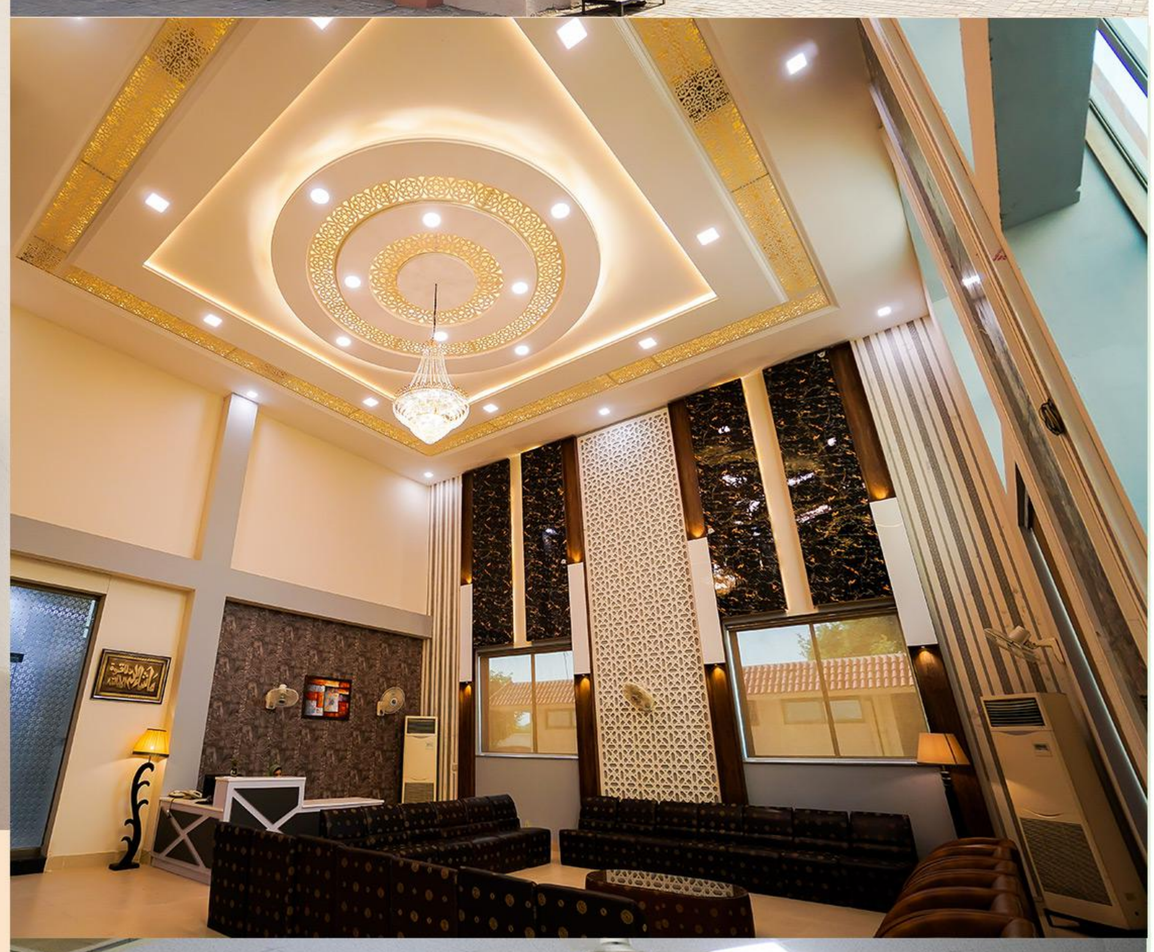
ISP WOMEN BLOCK

ISP Women's Block, established in 2018, is a leading educational institution for women in southern Punjab. From its beginnings, it has grown into a renowned and tremendous center for Male & Female education, preparing graduates to excel in various fields.

We aspire to not only provide top-notch education but also to nurture leaders and promote personal development among our students. Through a holistic approach, we empower women to thrive academically, culturally, and professionally.

Our commitment to providing a safe and inclusive environment is paramount. We welcome students from diverse backgrounds, ensuring they can pursue their education free from any safety concerns or discrimination

Ms. Nuzhat Safoor
Principal



Message

With over 35 years of experience, I am honored to lead ISP Women's Block in its mission to shape the leaders of tomorrow. Our focus goes beyond academics; we strive to instill in our students the qualities of confidence, self-awareness, and adaptability essential for success in today's ever-changing world. Together, we are not just nurturing minds but also fostering a community committed to positive change and progress. As head of the Women's Block, I am dedicated to empowering every student to realize her full potential and become a catalyst for societal transformation.

CREATIVE MINDS

INSPIRING FUTURES

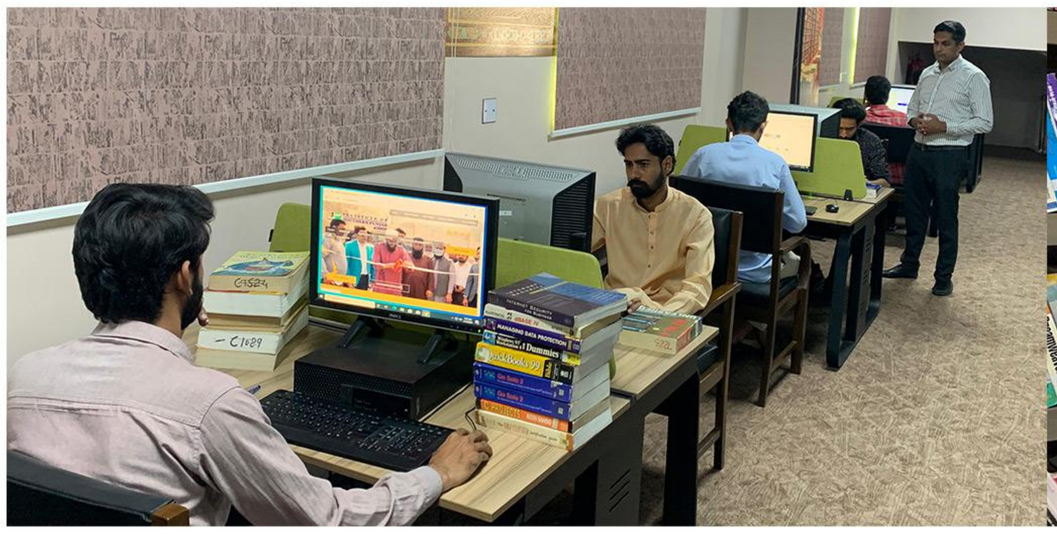
LIFE AT CAMPUS

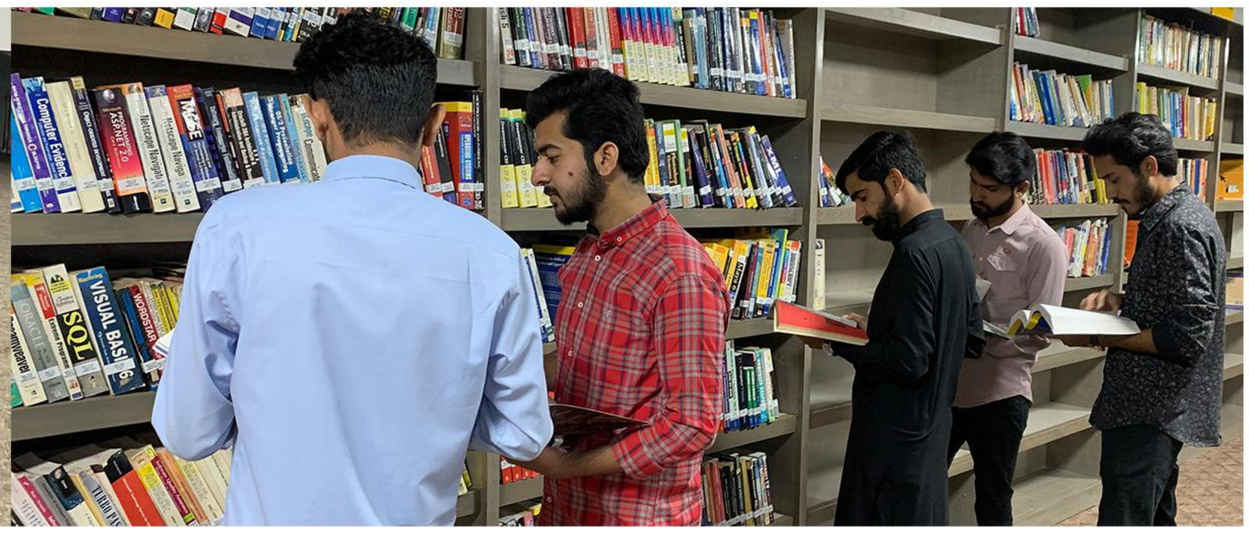
Life at the institution of higher learning plays in overall shaping up students personality. This informal part of the education is extremely important and this institute encourages its students to play active role in the extra curricular activities at the Institute. Taking part in one or several of these students activities is in an easy way to get into student life and to make new friends. A good and active social student life is also important for you to achieve your academic objectives. At the institute, students organize and participate in various social and extra curricular activities that make the life on the institute a memorable experience for them.

M H ALI CENTRAL LIBRARY

The library stocks textbooks, reference books, local as well as international journals to meet the needs of students and faculty. Substantial numbers of books are added periodically to keep the students abreast with the modern trends and theories in their respective fields. The library collections support every branch of knowledge. It consists of 15, 000 books.

These facilities engage students for sharpening their creative activities, development of academic culture and interactive learning.





EQUIPMENTS FOR ENGINEERING WORKSHOPS

Electrical, Mechanical, & Civil Technologies
The Institution has also set up the workshops for Electrical, Mechanical, and Civil technologies at state-of-the-art for practical exposure and to guide the students to undertake practical work relevant to their technologies.

THE LEGAL AUTHORITY

Institute of Southern Punjab Multan (ISP) is an autonomous privately managed institute. The Institute has been legislated by the Government of Punjab vide Act No. XIV/2010 on 21 July, 2010. The Governor of Punjab has conferred assent of Enactment of Institute of Southern Punjab Multan on 29 July, 2010. It was notified in the Punjab Government Gazette (Extra Ordinary) on 02 August, 2010 and enshrined in its constitution. The Governor of Punjab is the Patron of the Institute of Southern Punjab Multan. The Board of Governors is the Supreme Governing Legislative Body and the Academic Council is its main Academy Body.

Institute of Southern Punjab Multan has been honored with charter by the Government of Punjab as a Degree Awarding Institute (DAI). Higher Education Commission (HEC) Islamabad Government of the Pakistan has recognized I.S.P as a Chartered Degree Awarding Institute and awarded highest category of 'W' (A), listing it on its website under the heading "Chartered University / Degree Awarding Institutes of Pakistan in public and private sectors. The program strategy of ISP is to provide higher education opportunities of the highest quality at a reasonable and affordable cost to the masses.

Institute of Southern Punjab Multan has the honor and prestige to be the pioneer Institute in Private Sector committed to promote modern and progressive education in the region of Southern Punjab. It is an autonomous and independent in trait and character.

It is a project of higher learning and venue of academic excellence. Its prime focus is to produce professionals who are creative, innovative, discoverers, trend setters and capable of producing new ideas and projects.

IMPORTANT TO KNOW

According to Higher Education Commission (HEC) Islamabad there are 24 Universities / Degree Awarding Institutes (DAI) are functioning in the Punjab Province whereas out of these 24 Universities/ Degree Awarding Institutes, Lahore is fortunate to captivate loin share of 19 Universities / Institutes. The breakup of the remaining Universities / Degree Awarding Institute is one each at Taxila, Gujranwala, Faisalabad, Wah and Multan.

It is worth mentioning that the vast region of Southern Punjab comprising 3 civil administrative divisions have solitary Degree Awarding Institute in the name and style "Institute of Southern Punjab Multan" popularly known as ISP having enormous gap / vacuum ranging from Sukkar to Faisalabad stretching to Lahore. The Institute of Southern Punjab Multan developed infrastructure in all respects at University status and the management endeavouring its best to upgrade the only Degree Awarding Institute to Southern University of Multan.

Why choose

INSTITUTE OF SOUTHERN PUNJAB, MULTAN

- It is a Degree Awarding Institution Chartered by the Government of Punjab and recognized by Higher Education Commission (HEC) Pakistan.
- ISP Multan is the pioneer & largest chartered Degree Awarding Institute in Southern Punjab region.
- It has 7000+ students in different courses.
- It has a spacious campus.
- It has variety of market-oriented different academic programs.
- It has state of the art Campus situated 9-km Bosan road, Multan.
- It has seasoned Ph. D faculty.
- It has dynamic conducive environment for academic pursuits.
- It has very caring and friendly management.
- It has collabration with reputed foreign educational institutions.
- It has a Library equipped with latest books and research materials.
- It provides free students counseling services.
- It provides flexible fee payment package.

WHY CHOOSE ISP

Extra Miler in Education

ISP is extra miler in education. Your Institute experience gives you the knowledge, skills, confidence and experience to help you make your world better. Whether you're a college leaver or a mature student, ISP opens up a host of new opportunities and lets you take control of your future.

A Higher Education Qualification

Qualification at ISP makes you more attractive in the eyes of future employers and increases your earning potential. It shows that you have the ability and self-motivation to learn at a higher level, and the dedication to see your course through to the end.

Better Career Prospects

If you know what you want to do after graduating, your degree can significantly improve your job prospects at the same time as giving you professional skills and knowledge relevant to your future career.

Valuable Employability Skills

An increasing number of graduate jobs do not specify a particular subject area. Employers often look for the key skills that you develop throughout your degree, such as information technology, communication skills, teamwork and problem solving.

Personal Development Time

ISP lets you develop as an individual. It gives you the time and opportunity to develop new interests, learn new skills and meet new people.

Especially if it's your first time away from home, you'll become more independent and self-reliant. You'll also have space to form an idea of the path you want to take after graduation.

A World of Opportunity

At ISP, you'll have the opportunity to broaden your horizons by meeting new people from all over the country, facing new challenges and making use of the huge range of new activities.

Benefit from Excellent Global Career Outcomes

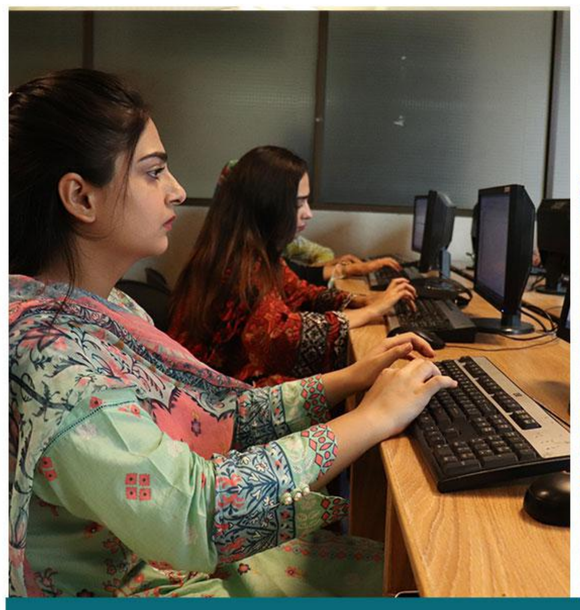
Our aim is to produce exceptional graduates with the skills and attributes necessary to succeed in the changing work environments of the 21st century.

Through the ISP experience we expect our graduates to become:

- Academically excellent;
- Knowledgeable across disciplines;
- Leaders in communities;
- Attuned to cultural diversity;
- Active global citizens.

A degree from the Institute of Southern Punjab is portable and is recognized within the country and world-wide.

Your degree will open up educational and professional opportunities for you to pursue either within Pakistan or internationally.



FACILITIES

High-tech IT Infrastructure

Institute of Southern Punjab Multan offers the most advanced IT infrastructure featuring Large Intranet, Wi-Fi Internet, Radio Wave Link, Server based network environment.

Laboratories:

Extremely sophistical laboratories having more than 600 Latest Computers fully equipped with all software based upon server machines, virtualization, core architecture, internet connectivity & wireless networks.

Servers:

Line of the art highly sophisticated servers installed in system core:

- Data Server : Dell Power Edge Servers with Virtualization environment
- Proxy Servers: Dell Power Edge Servers with Virtualization environment
- Backup Server: Acer Server with Virtualization Environment.
- Support Websites & Web-Applications, FTP Backups, SQL Server 2008 R2/2012 Microsoft Reporting Services and Content Delivery Network (CDN).

Hyper Virtualization:

Enhanced Virtualization using Windows Server 2008 R2SP1 and embedded Hyper-visors on Dell Power Edge Servers:

Core Architecture:

World-class extremely advanced architecture:

System Core:

- Rack-mounted Architecture featuring line of the art 1U / 2U Servers with extended configuration.
- Supreme storage featuring extremely redundant SAS RAID-5 Volumes.

Yet Extreme Emergency Backup Servers continuously replicated the RAID-5 volumes into SATA RAIDs.

Internet Connection:

- Top-speed 250 mbps internet connection.
- additional 32 mbps DSL Internet connection for load-balancing & backup

Networks:

Highly sophisticated Networks deployed featuring:

- High Speed Micro-Wave connectivity between campuses.
- WiFi support throughout the campus having range-boosters, speed-boosters & WPA2-PSK security

Client Computers:

High-speed computers featuring:

- Intel Core i3 / Core i5 / Core i7 Processors
- Upto 4 GB / 8 GB of RAM
- Upto 250 GB of Hard Drive plus space.
- LCD Monitor 17”/19” Wide screen
- High Speed Internet Connectivity.

Printers:

- High Quality Black & Color Laser Printers available through network

Imagining Devices

- High Range and Resolution Camera for still and video recording throughout the campus.
- High Resolution Scanners available.

Projectors & Interactive Devices:

- All Class rooms and Computer Labs are fully equipped with latest Multimedia Projectors.

FACILITIES

Security & Surveillance

Our country is facing tough time in terms of terrorism. This is our first priority to provide our students and staff a fool proof safety & security. In this regard ISP employs full range of security measures featuring 60 high resolution CCTV cameras, metal detection devices at the main entrance. Activity in and around campus is constantly monitored by the Administration and recorded on high capacity DVRs for review.

X- Army men and civilian Security guards with advanced automatic weaponry are stationed at the main entrance as well as parking lots and surrounding roofs keeping an eye view of entire vicinity. Every single individual, including students and staff, is checked while entering the premises. Our aim as far as possible is to provide a safe and secure environment for staff, students and visitors to the University 24 hours a day 365 days of the year.

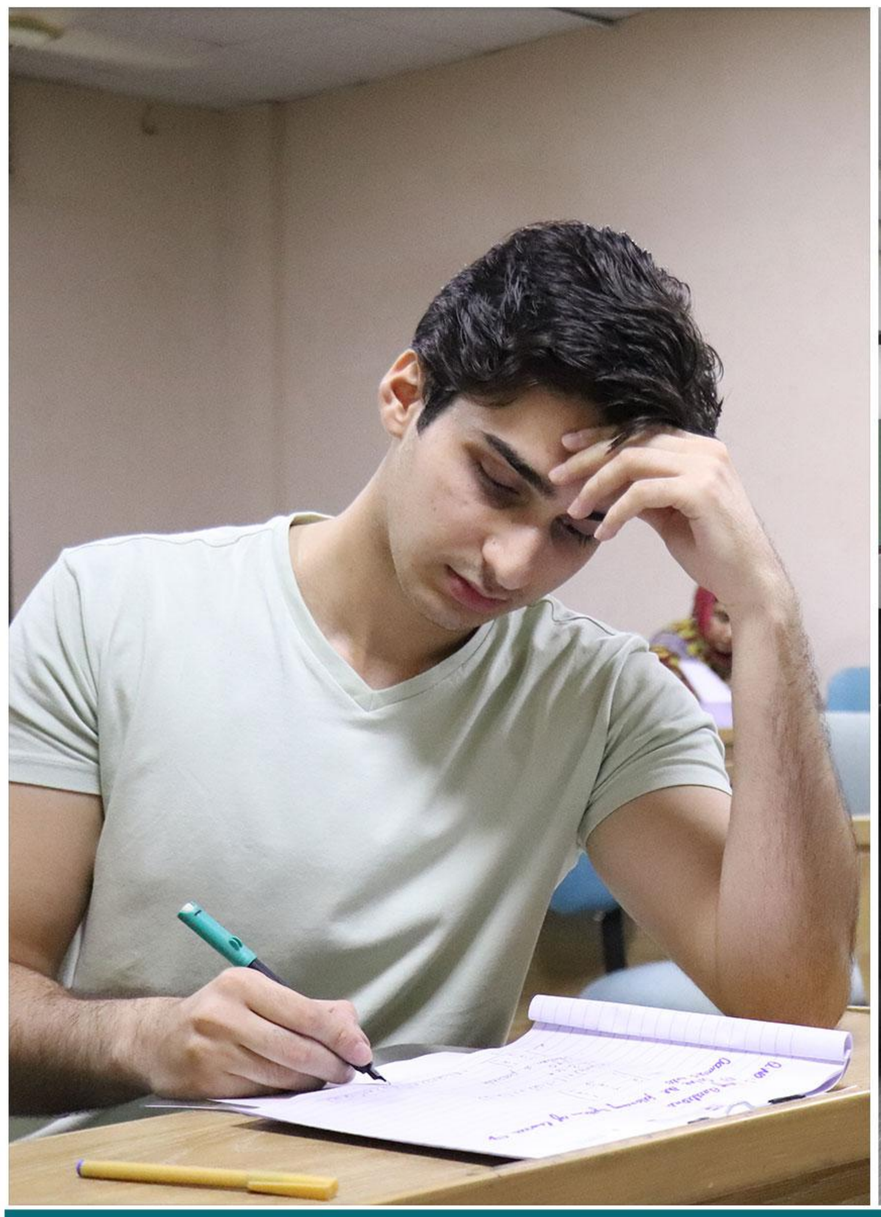
Counseling & Mentoring

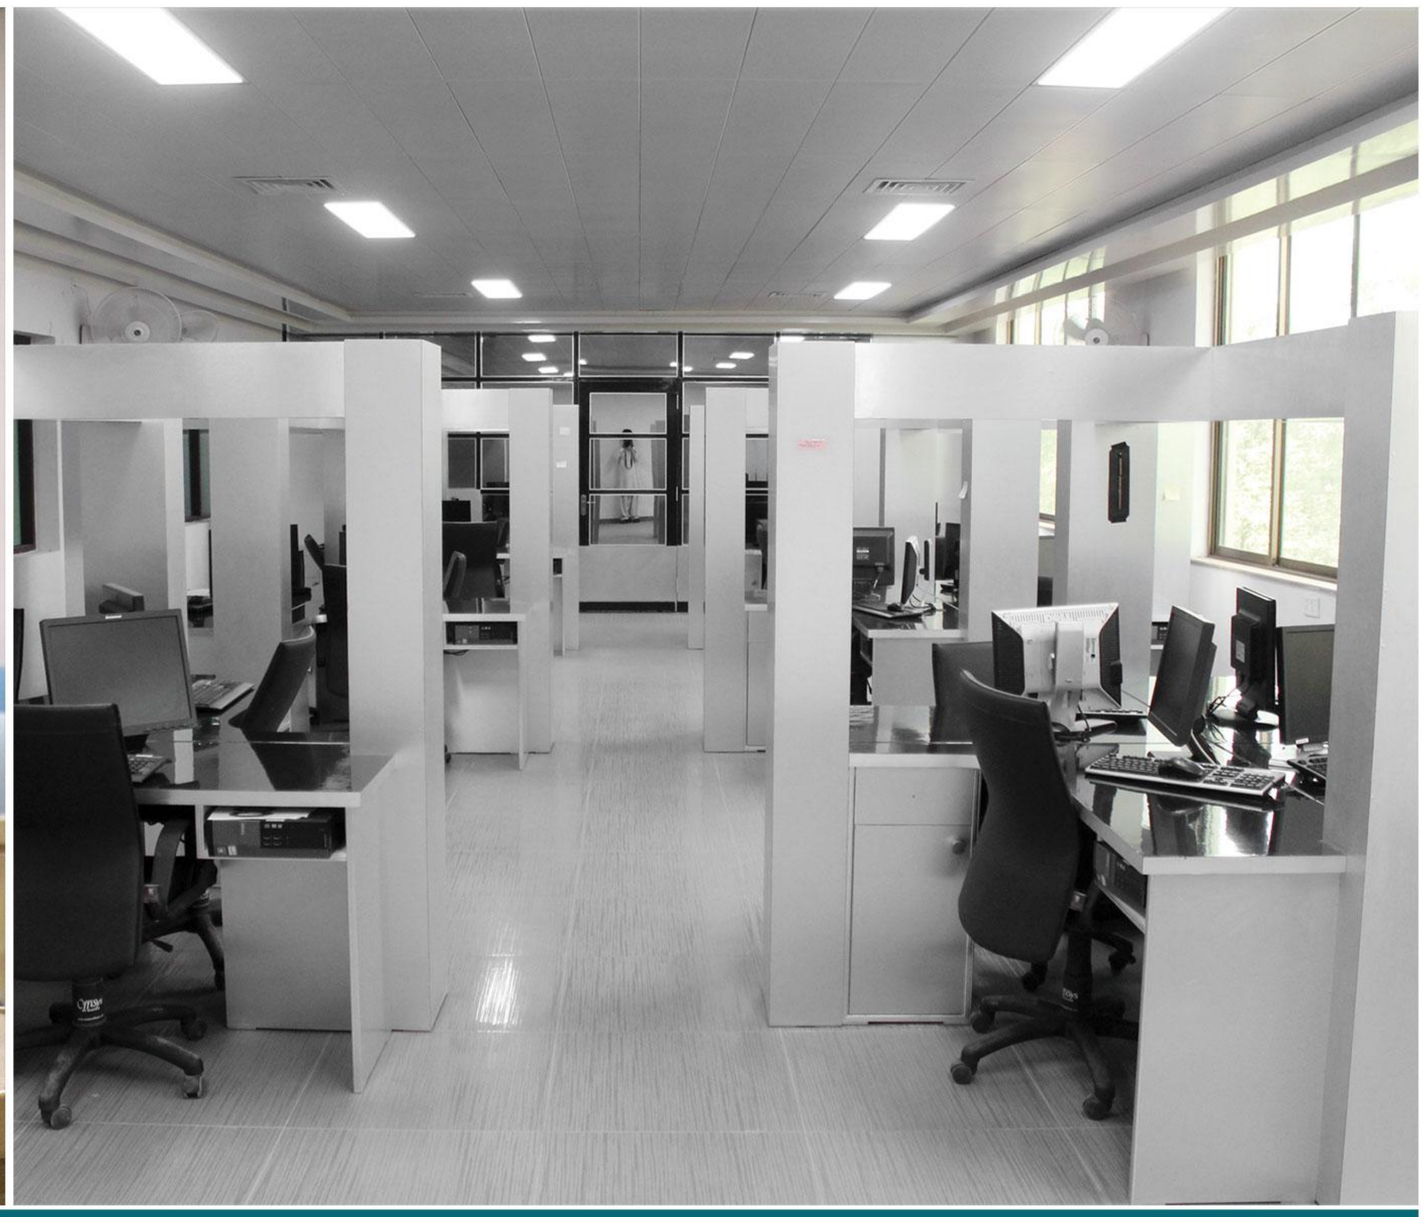
Counseling plays a vital role to build up healthy character and personality of students. This is our responsibility to give right direction to youth to get into practical life. A lot of educated young men and women lose sight of their goals by opting for careers they are not cut out for. We believe in exploring the potential in students and finding out what their aptitude and strengths are. On the basis of thorough analysis, the students are guided through the appropriate course of studies. We ensure the right course for the right person.

Our Academic Advisory Program is a part of these continuing efforts to provide academic counseling to our students. This program offers professional services to help students overcome problems, past and present, and gain self-understanding and direction with regard to their courses of study and career plans. Our counselors assist all students with their academic needs, course planning, program selection, counseling as well as change of academic status. Apart from full-time Academic Advisers, faculty members also assist advisers, as they are closer to the students' requirements and problems, and can give them friendly, on-the-spot advice at all times.

Our scientific method provides students with an opportunity to discuss their plans, including academic plans, and it also provides a number of facilities, including the all-important job-searching skills, resume-writing, appearing for interviews, and teaching how to assess their aptitudes towards the end of their studies.

In the context of Pakistan in particular, career counseling is extremely important, so that students who do not have a clear idea about what career to choose are counseled in this regard. They must be guided towards acquiring an active and positive attitude towards their future in an environment which is becoming increasingly difficult and stressful.





FACILITIES

Communication Center

ISP is structured with multiple administrative service centers that guide and support students and the communities we serve.

The Communication Centre explicitly operates for the purpose of facilitating communication between students and individual members of the Administration. Our Communication Centre is a 12 hour operation that provides administrative and support services to students. They respond to and assist with student inquiries, admission applications, enrollment, fees and scholarships, timetabling, add and drop, transcript, incomplete contract, internship, counseling and careers.

Students Support Centre

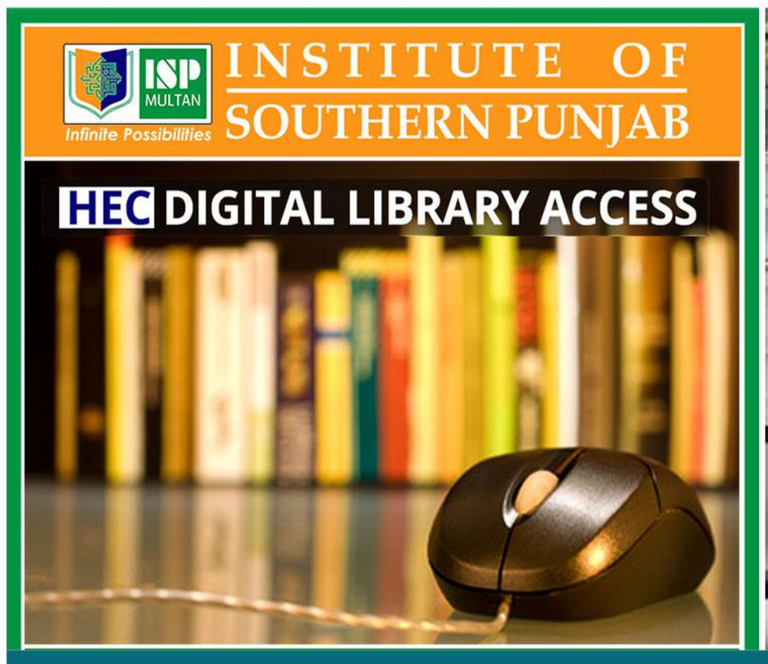
The Student Support Centre is dedicated to the provision of an array of integrated services especially designed for undergraduate and graduate students on campus to achieve their personal, academic and personal goals. Our staff members are highly trained and experienced professionals who know what campus life is all about. A dedicated group of student-volunteers (Selected from Executive Student Forum) work with us to provide our programs. In this they seek to:

- Respect the dignity and diversity of students
- Prepare students for engagement as global citizens. We support and promote the future well-being of students. We enhance student development and success through innovative programs, services and partnerships. We strive to create a community that is accessible to all, one where diversity is celebrated and good citizenship is valued.

Central Library

The library is the back bone of an Institute/University's academic environment. Not only is the actual physical library one of the main spots where students go to get work done, it's also a wide range of information and services.

ISP has built up a new modern building which is called Central Library along with other libraries which are already present in our different Blocks. All these libraries are designed to meet the needs of students and faculty and to provide support for the curriculum.



FACILITIES

We have increased the number of books in each department to a considerable extent. We also have the facility of Book Bank. Students who cannot afford to buy expensive books get to study used ones donated by students and faculty.

The University offers for its users:

- Over 20,000 books/e-books.
- 24 International Research Journals of at least Impact Factor of 1 and 25 National Research Journals.
- Access to more than a million latest books and journals through HEC digital library.

HEC Digital Library

HEC Digital Library can be accessed by our students within the ISP Campuses.

Modern Interactive Class Rooms

ISP provides a sound classroom learning environment which allows students to see anything presented visually, to hear any audible presentation free from noises and distortions, and to be physically comfortable (air flow, temperature, furniture, etc.) regardless of the method of instruction used. Significant amount has been invested to bring classrooms into the modern century. Latest technology and interactive devices such as multimedias, high definition projectors and double displays, state of the art presentation capabilities, computer based multimedia equipment for the delivery of courses, are some of the features apart from sound proof, air conditioned serene environment conducive to teaching and learning. CCTV cameras help maintain class decorum.

Open and shaded Courtyards

ISP Main campus comprises of 162 Kanals, a huge modern state of the art building gives you an impression of a university from abroad. We do understand the need of lawns, students seating areas, Bonfire lawns, fountains etc. We have multiple lush green lawns which are surrounded by shady trees and stunning flowers plants to give our students a healthy, fresh, airy environment ,clean and pollution free atmosphere. We have setup open and shaded courtyards with water-proof chairs, tables and comfortable cushions. Students not only socialize at such places but also enjoy the beauty of nature and aura of serenity that surrounds them.

Football, Table Tennis, Basketball & Cricket are key sports activities at ISP. We believe an active body and high spirit helps enhance the cognition and ability to learn. Sports area with proper markings/layouts for different sports like football, basketball ,Table tennis, Badminton, volleyball and cricket is dedicated for students. A professional cricket pitch has been prepared to meet the needs of our cricket team to play matches round the year. Few Badminton courts have been set up with proper wind shield walls in order to give our students a smooth and open air badminton experience.

FACILITIES

Snooker, Chess, Darts

To sharpen the edges of mind we need to play 'mind-games' – ISP offers an entire facility to play snooker, billiard, , chess, draft, darts and scrabble. Thrilling music on high-definition auto system is played to raise the spirit and boost up the energy, while serenity is provided for chess, draft & scrabble.

Transport Facility

ISP being the largest Degree Awarding Institute in South Punjab and having 7000+ student body is well aware of the pick and drop facility to the students. We have the biggest Transport fleet of buses in private sector in Multan. Everyday thousands of students and staff are picked from their nearby stops by our buses and are taken to Institute safely and on time. Our transportation fee is kept so affordable and we are covering the whole city of Multan including outskirts and suburbs.

Internship Opportunities

During the studies, the students must do internship to gain hands-on experience of various industries. It is a mandatory requirement to complete the degree program for the students of Media Sciences and Business Administration. The Department of Quality Assurance & Development coordinates with various national and multinational companies to tap internship and job opportunities for students.

The qualified staff of CDC provides the following comprehensive services to facilitate the prospective interns:

- Conduct seminars & workshops by inviting leading HR personnel of national and multinational companies to the campus
- Gather information through media (newspapers/web portals and other sources) and save it in a database to internally list the job opportunities on the notice boards
- Hold interactive sessions with HR firms.
- Encourage students to pursue internship by meeting with students individually
- Collaborate with academic departments to incorporate career development activities into the educational experiences of students
- Foster connections with employers, members of the University community, professional institutions, and alumni to increase educational and recruitment opportunities for the students
- Arrange on-campus career fairs to maximize access to employment opportunities

We are continuously holding seminars to develop the following skills of our students:

- Communication Skills
- Presentation Skills
- CV Writing Skills
- Self-Assessment Skills
- People skills
- Group discussions enhancing global needs, perceptions & perspectives.

FACILITIES

Cafes

Two modern cafes **(Cafe Garden & cafe Terrace)** are present for students in the campus that remain open during the working hour of the institute. The cafeterias serve almost 7,000 students. To ensure quality and hygiene of the food, a Canteen Committee looks after the menu selection and quality of service. Taste buds come alive with vast dining selections. Fast food, lunch, snack bars, baked goods, tea and coffee can be found at our campus.
Cafeterias provide fresh meals prepared according to hygienic rules. It is a place where students enjoy their favorite meals and have social interaction and they discuss academic and social issues with fellow students. A committee is deputed to check and examine quantity, quality and rates of the food at the university. It also monitors the hygienic conditions of the cafeteria

Cafe Terrace

The cafeteria is fully air conditioned and provide a range of snacks and meal options which are available to students throughout the day. The enclosed lounges also caters to members of the faculty and staff during meal times. WIFI is provided for those students who want to enjoy food while working with their fellows.

Cafe Garden

Café garden is an open café with mango orchids in its vicinity, benches are placed for students to enjoy their meal in open fresh environment. Its offers canteens goods, barbecue options as well as traditional snacks in casual lively environment.

Southern Auditoria—Ergonomical Anchor to Unforgettable Events

Shakespeare said, 'All the world is a stage'. We play and learn to play social, familial and professional roles in this world. We need education to play these roles effectively. An auditorium is a central learning space in any educational institute. It is an institutional landmark. The purpose of an auditorium is to enable an audience to hear and watch speeches, award ceremonies, presentations, performances, rehearsal and productions. With its futuristic vision, ISP is more than just a set of buildings. It is a center of intellectual and professional development in this part of Pakistan. Realization of its vision necessitates the frequent organization of training sessions, conferences, seminars, symposium and events. To effectively stage all these and other such events, ISP has built state-of-the-art, multipurpose auditoria—Jinnah Auditorium and Iqbal Auditorium. These stunning and elegant auditoria are host to academic, professional and cultural events

Located in the newly-built architectural masterpiece, Eng. Ch. Nazir Ahmad Block of the main campus, the immaculate interior spaces of these auditoriums welcome you into a world of comfort. The relaxed ambience of these spaces is popular among academicians of the region who frequently visit ISP and grace the stages of the auditoria. One of the hallmarks of these purpose-built auditoriums is that everyone in the halls can hear clearly and enjoyably, everything that is presented. The acoustic systems of our auditoria halls were designed to provide natural sound clarity and intelligibility. Ceilings and walls control the sound reverberation time. The magnificent acoustics and impressive surroundings of our auditoria make way for exciting and engaging events. The beautiful seating arrangements of these two master pieces of innovation and cutting-edge technology provide clear sightlines from all seats.

JINNAH AUDITORIUM

Jinnah Auditorium takes its name from Quaid-i-Azam Muhammad Ali Jinnah, the founder of Pakistan. The magnificent hall is located on the first floor of Eng. Ch. Nazir Ahmad Block of the main campus of the institute. Built in the shape of ¾ arena type, the auditorium enjoys a seating capacity of 300. There are three multimedia screens for audience in the air-conditioned auditorium hall. The central elevated stage area improves sightlines. The stage is surrounded by audience on all sides. This shape of ¾ arena imparts the auditorium Greek touch and improves the hearing and visual contact between audience and speaker. ISP management has installed expertly crafted furniture in the auditorium. The hall contains comfortable armchairs characterized by ergonomics, functionality and comfort for every participant. This modern stylish space hosts scores of events every year.

FATIMA JINNAH HALL

Fatima Jinnah Auditorium takes its name from Fatima Jinnah, the mother of nation. It is a state of art facility recently added in Women Block .As Women Block is a separately build to facilitate female students, the auditorium is added so they may practice /host as many event as they want on individual level. . This beautiful plush red seated auditorium serve as the open door towards discovering student's abilities through extracurricularactivities. It features the latest technology and equipment with almost 100 seating capacity. There is a multimedia screen with a central elevated stage to maximize sightlines. The hall includes every basic to modern facility that ensures functionality, with comfort.

IQBAL AUDITORIUM

Iqbal Auditorium takes its name from Poet of East, Allama Muhammad Iqbal. It is the largest venue at the Institute of Southern Punjab. With a seating capacity of 450, this upper ISP auditorium is rectangular in shape. Located on the third floor of Eng. Ch. Nazir Ahmad Block, the auditorium is perfect venue for training sessions, lectures, workshops and conferences. Premium quality furniture has been used in the seating design. The armchairs have elegant line and innovative technical content. The firm seats allow greater freedom of movement and provide a more welcoming and comfortable seating experience.

The galleries outside these two auditoriums shine with steel, marble, granite and glass. Both these auditoriums are stunning fusion of architecture, aesthetics and educational vision of transformation. The two simple and robust structures are new symbols of educational excellence in the urban fabric of Multan. Seminars, symposiums and conferences can now go on in Southern Punjab with style, comfort & success. By building the pristine and premium Eng. Ch. Nazir Ahmad Block, ISP has provided an iconic building for the city which is known for its traditional architecture.

Quality Assurance

61 Quality Enhancement Cell

Introduction

QEC is established under the umbrella of QAA of HEC to enhance, maintain and monitor quality of higher education. Quality Enhancement Cell at ISP established in 2012. It is responsible for the implementation of Internal and External Quality Assurance & Management system of the institute.

Vision

To adopt best practices to develop the university into a top ranked institution for higher studies and research

Mission

- Develop and implement best practices in education and research
- Train faculty and staff to implement quality at every stride
- Monitoring and evaluating the designed practices for academia, administration and top management
- Continuously striving for advancements in every area

QEC Functions

- This Quality Enhancement Cell is regulated by Quality Assurance Agency established at Higher Education Commission.

- QEC is responsible for promoting public confidence that the quality and standards of the award of degrees, management and overall quality of knowledge being imparted by the institution are enhanced and safeguarded.

- QEC is responsible for the review of quality standards by auditing academic standards and the quality of teaching, learning and management in each subject area.

- QEC is responsible for the review of academic affiliations with other institutions in terms of effective management of standards and quality of programs.

- QEC is responsible to develop qualifications framework by setting out the attributes and abilities that can be expected from the holder of a qualification, i.e. Bachelors, Bachelor with Honours, Master's, M. Phil., Doctoral.

62 Quality Enhancement Cell

• QEC is responsible to develop program specifications. These are standard set of information clarifying what knowledge, understanding, skills and other attributes a student will have to develop for successfully completing a specific program.

• QEC is responsible to develop quality assurance processes and methods of evaluation to affirm that the quality of provision and the standard of awards are being maintained and to foster curriculum, subject and staff development, together with research and other scholarly activities.

• QEC is responsible to ensure that the university's quality assurance procedures are designed to fit in with the arrangements in place nationally for maintaining and improving the quality of Higher Education.

• QEC staff will get the capacity building training from HEC on the subject of quality in higher learning and is responsible to implement and disseminate the acquired knowledge to the learning environment of the institution.

Responsibilities

QEC is responsible to develop procedures for the following:

• Improvement of existing programs and approval of new programs in consultation with already existing body responsible for the task at Institute.
• Annual monitoring and evaluation including program monitoring, faculty assessment, and student's perception
• Developing a data source for accurate information regarding quality assurance which is deliverable to all stakeholders
• Departmental review
• Student Feedback
• Employer Feedback
• Faculty Feedback
• Alumni Feedback
• Quality assurance of Bachelor's, Master's, M. Phil. and Ph. D. degree programs
• Subject review
• Institutional audit
• Program specifications
• Programs review
• Self assessment of all programs
• Qualification framework
• Over all quality improvements in institutional management/leadership

Southern Executive Development Centre is first of its kind initiative in the region of South Punjabi. An In-house training centre that aspires to achieve personal and professional excellence in the students through transformation, with the help of Modern Learning System we aspire to transform raw individuals into the best versions of themselves. We believe in Designing paths, creating avenues and setting the conducts for a successful and turned-out individuals of this institute specifically and society at large.

VISION

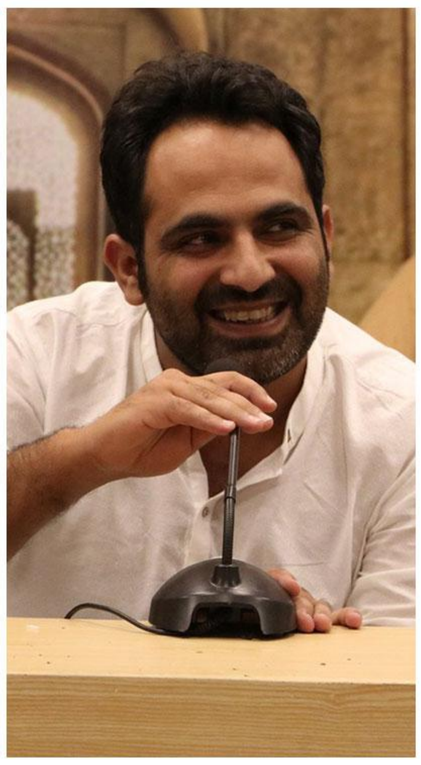
Southern Executive Development Center is committed to become a world class development center that produces finest version of individuals who live their lives to the fullest both personally & professionally.

MISSION

To introduce Modern Learning System (Experiential Learning Design) of teaching for an extraordinary learning experience. To raise the standard of institution by refining both students & human resource through regular in-house trainings. Rationale

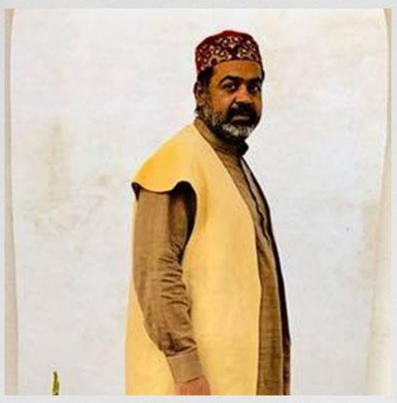
Rich in talent and having strong historical background the region of South Punjab has every capability to contribute in making Pakistan a great nation. There was a great exigency to uplift the ignored talent of this region. As an educational institution, we recognize our responsibility towards this region.

So, we initiated an in-house development center that will help in achieving the vision of this Institution.



SEDC | talks

SEDC talks is another initiative by SEDC to share the ideas and knowledge that matter to our society. It's open for everyone. Following are some of the glimpses of some unforgettable sessions by our lead trainers.



SEDC Talks by
Sahibzada Asim Maharvi Chishti

Institute of Southern Punjab, Multan was delighted to have Sahibzada Asim Maharvi Chishti on the stage of SEDC Talks for a thought provoking session. In his session he addressed the youth of the institute and shared his valuable experiences. He talked about exploring the inner self and then ultimately exploring God. Students and management was awe-struck with his words and his session was a source of immense knowledge for everyone.

SEDC Talks by
Khalid Anum

SEDC Talks is a platform which has become a landmark in itself. We are reaching out to masses and are trying to get on board a variety of speakers from all walks of life.
Khalid Anam needs no introduction, a celebrity, a star, a great human being who proved his identity when there was just one TV channel PTV back in early 90s. He has acted in 100s of TV dramas and has been awarded many awards. He is working as Head of Department of Media Studies in a University in Karachi. Institute of Southern Punjab invited this great Actor at SEDC Talks where he shared his life story along with a thought provoking speech. He made us laugh, think and left students with a thought that nothing is impossible if passion, urge and hard-working mind set are put together for achieving something.

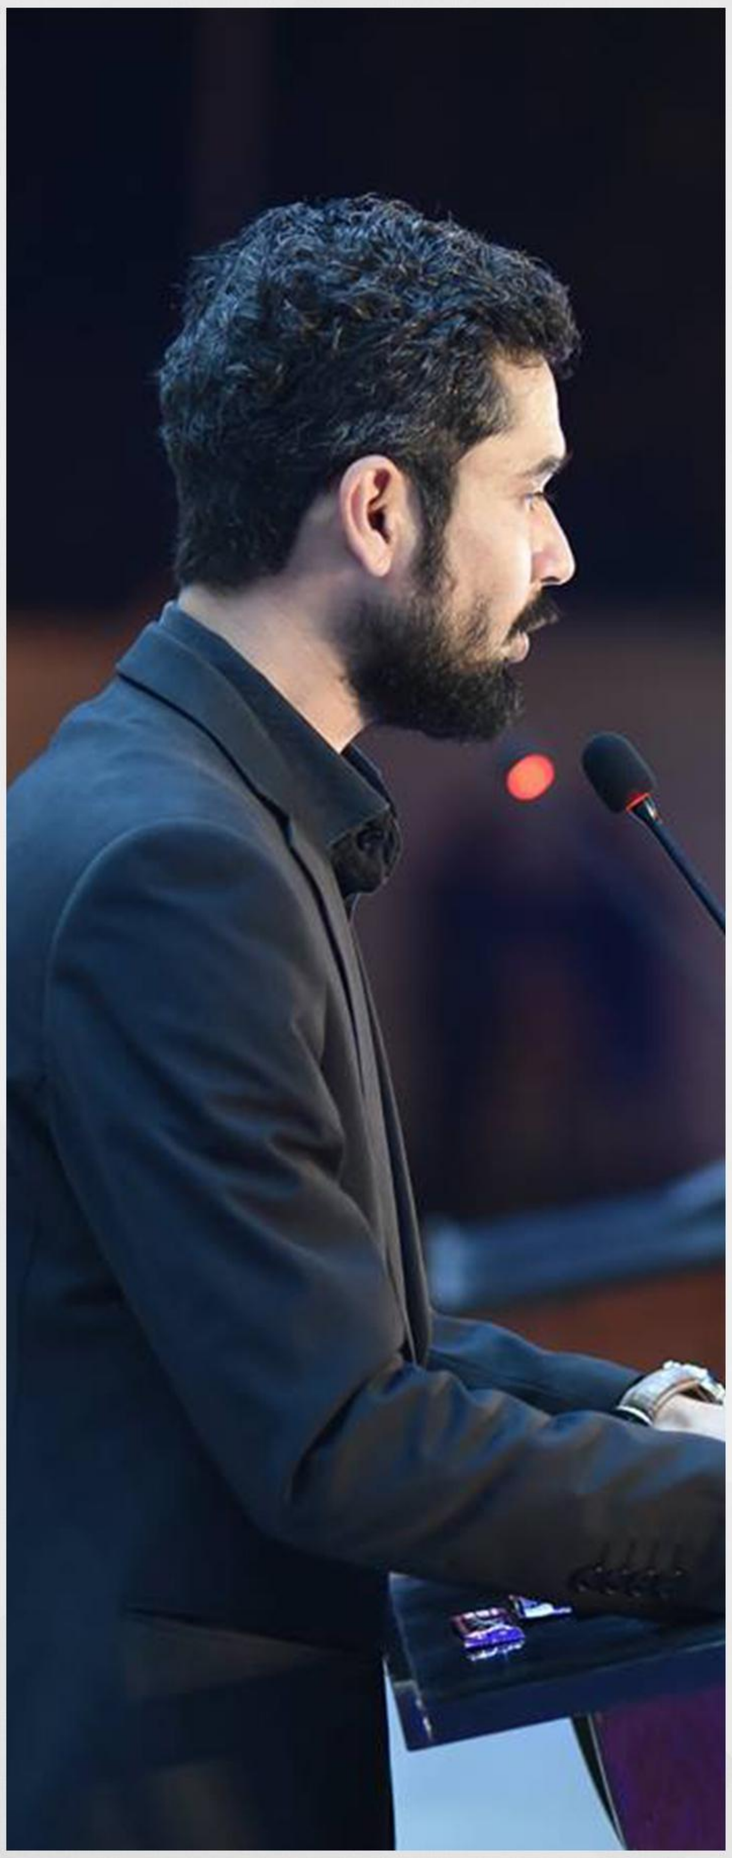
SEDC Talks by
Firdous Jamal

Acting is behaving truthfully under imaginary circumstances. At Institute of Southern Punjab we always provide a platform to our students to learn something new.
Firdous Jamal, a senior actor was invited as a guest for SEDC TALKS on the topic JUSTUJOO.
His talk not only motivated students towards the acting skills but also how struggle can help them to achieve their goal in life.

And counting...

65 Southern Executive Development Centre

The energetic team of SEDC is always up for bringing innovative ways to groom and develop the students of Institute of Southern Punjab. Every team member is expert in their relevant training field and they are always striving to bring new tools for the development of youth.



EXECUTIVE STUDENT FORUM

LEARN, GROW AND LEAD!

Institute of Southern Punjab (ISP) believes that co-curricular activities play a pivotal role in the personality development of the students. It provides them a chance to explore, nourish and promote their hidden talents. For this purpose a student forum, Executive Student Forum (ESF) is working at Institute.

ENTREPRENEURSHIP CENTRE

Ready to be an entrepreneur?

Institute of Southern Punjab presents Entrepreneurship Centre. We offer business acceleration and start-up incubation services that include fully furnished office space, utilities, internet and access to a lot of other ISP resources. Get mentoring and build relationships with veteran businesspersons and investors. Leverage the ISP brand to grow your new business!

Projection & Promotion

The Office of Projection and Promotion performs various important functions for the University. It is the convergence point for both internal and external stakeholders, including students, alumni, faculty, staff, prospective students, visitors and others. Divided into a number of different areas according to function, the basic purpose of PnP team is to position the institute as one of the international standard institutes nationwide.

DEPARTMENT OF INTERNSHIP AND PLACEMENT

Internships

The experiences we go through shape our knowledge, perceptions and attitudes. Therefore, experience is one of the sources of knowledge. Professional experience exists in three different forms: internships, volunteer work, and actual job experience. 'A journey of thousand miles begins with a small step', goes a saying by Lao Tzu, an ancient Chinese philosopher. Similarly, long professional careers begin with internship.

Internships provide a nice learning curve for students with little experience of the professional world. Students gain first-hand exposure of working in the real world. Internships provide controlled and stable environment to work in. It means that an intern isn't thrown into the aggressive world of hawks and wolves but rather given proper training, assignments, and duties without the added pressure.

In addition, students get opportunities to network with professionals in the specific industries and companies they are interested in. Networking is an exchange of information between people, with the ultimate goal of establishing acquaintances and relationships to advance your professional career. Thus, through internships students build long-lasting connections and relationship with company professionals that can be very beneficial for their future career.

DEPARTMENT OF INTERNSHIP AND PLACEMENT

Furthermore, internships done with dedication are the perfect way to enhance your resume through relevant experiences. When an employer sees that you've completed an internship for a six-month or eight-month span, it will go a long way to convince them that you are an asset to their company. This is why that when describing internship experience, it's not enough to simply show you've spent some time as an intern, list the tasks you've done and projects you've participated in to demonstrate your value and skills . In short, the more experience you acquire, the better you position or ensconce yourself for success in landing a job. Department of internship and placement ISP, facilitates internship exclusively for ISP students in cutting-edge institutes, leading organizations and national and multi-national corporations. Under the auspices of this department, students have successfully undertaken internships in different national and multi-national companies and have gained valuable work experience while travelling to exciting locations and landscapes in Pakistan. Thus, department of internship and placement helps students explore the best available work experience options in a variety of sectors. The blending of theory and practice increases students' motivation and allows a clearer view of their career path.

Placement

What differentiates ISP from other institutes and universities in the region is its futuristic vision and forward thinking. ISP management is aware of the serious youth employment issues in this highly competitive and fast advancing world. Pakistani graduates have to go abroad in search of greener pastures. Therefore, they have to compete with the graduates from other Asian countries. The institute ensures that its educational programs are relevant to the employment needs of industrial and commercial world in Pakistan and abroad. This modern alma mater of top-notch professionals helps its students translate their academic knowledge into productive and professional assets. To neutralize unemployment in the country, this suburban educational beauty believes in cementing its relations with industry. ISP department of Internship and placement has a systematic, robust and well-organized placement program for its passing-out graduates. The program is based on fruitful industry-academia partnership. To facilitate acquisition of dream job, this department interacts and coordinates with potential and prospective employers for off-campus placements. In addition, job fairs are organized; prospective employers come and interview ISP students at the campus. With sincere and dedicated efforts, ISP department of internship and placement has won the confidence of its placement partners. In this way, ISP is contributing to the incredible growth of the nation. The department has close relationships with the following external organizations in cellular, automobiles.

Cellular Companies
• Mobilink
• Q Mobile
• Ufone

• Zong
• Telenor

ADMISSIONS PROCEDURE

General Instructions:

1.Admission will be open to all based first come first serve and subject to the meeting of criteria irrespective of race, gender, and ethnicity or socio-economic conditions.

2.The number of students to be admitted in a program shall be determined by the Admission Committee at the time of admissions, on case to case basis.

3.All applicants will use admission form placed in prospectus or via online admission portal.

4.All information submitted by the applicants for admission should be supported by attested copies of all relevant documents including transcripts and certificates; lack of official proof shall render a document invalid.

5.The applicant shall remain responsible for the provision of complete, correct and timely (before the closing date) information to the Admission Office; incomplete or incorrect information will not be entertained.

6.Provision of false, forged or fake document(s) or such entry in the admission form shall be dealt with the prevailing laws of the land. In such a case, the applicant's request shall not be processed for admission. The admission of such an applicant shall be cancelled.

ELIGIBILITY FOR ADMISSIONS:

Eligibility requirement may vary for each program , detailed information can be found next to the program/department applicant wants to apply in.

ADMISSION PROCEEDURES:

How to apply :

1- Apply via prospectus

One can buy prospectus containing application form from Centralized Admission office.

2- Apply via online admission portal

An Applicant may apply via Online Admission Portal Link provided on web site www.isp.edu.pk .

For applying for admission, applicant will follow the given instructions ,

1. Visit the website www.isp.edu.pk and click on the link APPLY ONLINE
2. Sign Up as new User by filling your bio data
3. Sign In again with the provide user name & password
4. Last degree on behalf of student is taking admission
5. Click Create Application button In My Application Tab
6. Select mode of education (Main Campus/ Women Block)
7. Select Department
8. Select Program
9. Attach most relevant result cardsto application.
10. Click Submit Application button.
11. Select payment method In Payment Tab

• If you have purchased Prospectus, then Enter Prospectus Number. Or

• Download Online Application Fee voucher and pay fee voucher in bank (Bank name is mentioned on fee voucher) or via Jazz cash till ID (Till ID mentioned on admission portal). After payment submission upload fee voucher on admission portal.

12. Keep visiting admission portal for application status.

ADMISSIONS PROCEDURE

درخواست جمع کروانے کا طریقہ

1۔ بذریعہ پراسپکٹس

ادارہ کے مرکزی دفتر سے درخواست فارم پر مشتمل پراسپکٹس خریدیں۔اسے مکمل کریں اور طریقہ کار کے مطابق تمام دستاویزات منسلک کر کے ادارہ کے داخلہ دفتر میں جمع کروائیں۔

2۔ بذریعہ آن لائن ایڈمیشن پورٹل

ادارہ کی ویب سائٹ(WWW.isp.edu.pk) پر فراہم کردہ داخلہ پورٹل لنک کے ذریعے درخواست جمع کروائی جاسکتی ہے۔

مرحلہ نمبر1۔ ادراہ کی ویب سائٹ ملاخطہ کریں اور(Apply Online) پر کلک کریں

مرحلہ نمبر2۔ نئے صارف کے طور پر(Signup) کے بٹن پر کلک کریں اور اپنا بائیوڈیٹا درج کریں۔

مرحلہ نمبر3۔ اپنے موبائل نمبر اور پاسورڈ کے زریعے(Signin) کریں۔

مرحلہ نمبر4۔ اپنی تعلیمی پروفائل میں آخری ڈگری درج کر کے پروفائل مکمل کریں۔

مرحلہ نمبر5 مائی اپلیکیشن کے ٹیب میں(Create Application) کے بٹن کو کلک کریں۔

مرحلہ نمبر6۔ ادراہ کے کیمپس کا انتخاب کریں مین کیمپس مخلوط تعلیمی نظام کے لیے جبکہ خواتین کیمپس صرف خواتین کے لیے وقف ہے۔

مرحلہ نمبر7۔ مطلوبہ ڈیپارٹمنٹ منتخب کریں۔

مرحلہ نمبر8۔ مطلوبہ پروگرام منتخب کریں۔

مرحلہ نمبر9۔ (Submit Application) کے بٹن کو کلک کریں۔

مرحلہ نمبر10۔ آن لائن داخلہ فیس کے طریقہ کار کا انتخاب کریں۔

آن لائن داخلہ فیس واؤچر پر درج بنک میں جمع کروائیں یا جازکیش کے Till ID کے زریعے فیس ادا کر کے رسید کا سکرین شارٹ لگائیں۔

مرحلہ نمبر11۔ اپنی درخواست کا سٹیٹس دیکھنے کے لیے ایڈمیشن پورٹل وزٹ کرتے رہیں۔

Following GAT Categories are acceptable by ISP for different programs)

GAT GENERAL

GAT A

MS / MPhil Business Administration

MSc Engineering

GAT B

MS/M.Phil. English

MS/M.Phil. Economics

MS/M.Phil. Psychology

M.Phil. Education

MS/M.Phil. Urdu

MS/M.Phil. Mass Communication

MS/M.Phil. Islamic Studies

GAT C

MS/M.Phil. Mathematics

MS/M.Phil. Computer Sciences

MS/M.Phil. Statistics

GAT D

MS/MPhil Islamic Studies (شہادۃالعالمیہ)

Age Limit:

For ADP/BS/LLB (Morning/Weekend) Programs, age limit is 24 years.

However for certain programs (B.Arch/Technology/ Engineering) relaxation in age limit is possible on request.

Sex:

Both male and Female applicants are given equal opportunity based on their merits.

Fee Refund Policy:

Approved fee refund policy is available on officially website: https//www.isp.edu.pk/fee-refund-policy

QUALIFICATION FOR ENTRY

MINIMUM QUALIFICATION FOR ENTRY

The admission committee formulates the admission policies in accordance with the rules laid down in the charter of the ISP. To apply for admissions, the student should have the minimum qualifications set forth for each program.

In view of inconsistency in schedules of examinations conducted by various bodies in Pakistan and overseas, applications for entry from students waiting for the results will also be entertained. Such applicants, if selected in the admission process, will be granted provisional admissions. These admissions will automatically stand cancelled if such candidates fail to attain the required minimum qualifications before till 28 February for spring session & before 30th September for fall session.

MINIMUM QUALIFICATION FOR BACHELOR DEGREE PROGRAM ADP/BS/BBA

Candidate who have passed the Higher Secondary Certificate (HSC) / Intermediate Examination from any Board of Intermediate and Secondary Education in Pakistan or an equivalent examination recognized by the Committee of Chairmen Board Intermediate and Secondary Education, Pakistan, with minimum second division are eligible to seek admissions for Bachelor Program.

MINIMUM QUALIFICATION FOR BS (2.5) PROGRAM

Candidate who holds a Bachelor Degree or its equivalent with at least second division in an appropriate field of study from a University / Institute recognized by the Higher Education Commission (HEC) are eligible to seek admission to Master Program.

Accredited by PEC (Pakistan Engineering Council)

Accredited by NTC (National Technology Council)

SOUTHERN SCHOOL OF ENGINEERING & TECHNOLOGY (SSET)

Prof. Dr. Muhammad Nasim
Dean
Faculty of Engineering & Applied Technology

Faculty of Engineering & Applied Technology

Vision

To become a leading institute of learning by creation and dissemination of knowledge for sustainable socio-economic development and technological advancement of the country and the world, at large.

Mission

The institute will produce highly qualified and committed individuals who will play a leading role in the sustainable development of the region and the country. The human resource, thus produced will be equipped with the necessary knowledge and skills to act as solution provider for many issues of the region and the country while respecting the ethical values.

Program Offered

BSc Electrical Engineering (4 Years)
BSc Civil Engineering (4 Years)
BSc Mechanical Engineering (4 Years)
MSc Electrical Engineering (1.5/2 Years)
MSc Civil Engineering (1.5/2 Years)
MSc Mechanical Engineering (1.5/2 Years)
Computer Engineering Technology (4 Years)
Information Engineering Technology (4 Years)
Energy Engineering Technology (4 Years)
Automotive Engineering Technology (4 Years)
Environmental Engineering Technology (4 Years)
Food Engineering Technology (4 Years)

Department of Electrical Engineering & Technology

DEPARTMENT OF ELECTRICAL ENGINEERING & TECHNOLOGY

Introduction

The department of Electrical Engineering aims at providing a solid foundation in mathematics, physical sciences and computer programming followed by an intensive coverage of principles of electrical engineering both in class rooms and laboratories to ensure that the students are equipped with futuristic professional approach, rationale reasoning, analytical skills and life-long learning techniques. A range of undergraduate and graduate programs are offered at the department of Electrical Engineering to meet the diverse needs and interests of the students. The curriculum in various programs cover a broad spectrum of topics, including circuits, electronics, power systems, control theory, communication systems, renewable energy, and much more. Through a combination of rigorous coursework, hands-on projects, and experiential learning opportunities, students gain a deep understanding of fundamental principles and practical applications in electrical engineering. The Electrical Engineering department boasts state-of-the-art laboratories, equipped with cutting-edge equipment and technology, where students have the opportunity to apply theoretical concepts to real-world problems. From designing and testing circuits to developing innovative solutions for sustainable energy systems, our facilities provide an immersive learning environment that prepares students for success in their future careers. Students are also encouraged to join the professional associations to widen their exposure to engineering research and to provide them with an active platform for exchange and expression of their technical ideas. Electrical engineers are in demand with employers in Pakistan and overseas. The major employment areas include electrical power generation, supply and distribution, power systems, consumer electronics, industrial automation, installation and design of electrical machinery and telecommunication networks.

Mission

Department of Electrical Engineering focuses to prepare technically strong graduates who can contribute effectively towards the nation, society, and industry by using research, innovation and interpersonal skills while respecting the ethical values.

Program Offered

BSc Electrical Engineering (4 Years)

MSc Electrical Engineering (1.5/2 Years)

BSc ELECTRICAL ENGINEERING
DEPARTMENT OF ELECTRICAL ENGINEERING & TECHNOLOGY

Program Educational Objectives (PEOs)

PEO i. Effectively apply electrical engineering knowledge to analyze real-life problems and design economically feasible solutions by utilizing modern tools.

PEO ii. Demonstrate the ability to work independently and as a team, with a sense of ethics and professionalism, and communicate effectively to manage cross-cultural and multidisciplinary teams.

PEO iii. Demonstrate a responsible attitude towards society and environment, and engage in continuous professional development.

Program Learning Outcomes (PLOs)

1. Engineering Knowledge

An ability to apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems.

2. Problem Analysis

An ability to identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

3. Design Development of solution

An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

4. Investigation

An ability to investigate complex engineering problems in a methodical way including literature survey, design and conduct of experiments, analysis and interpretation of experimental data, and synthesis of information to derive valid conclusions.

5. Modren Tool Usege

An ability to create, select and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling, to complex engineering activities, with an understanding of the limitations.

6. The Engineer & Society

An ability to apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice and solution to complex engineering problems.

7. Envirement & Sustainability

An ability to understand the impact of professional engineering solutions in societal and environmental contexts and demonstrate knowledge of, and need for, sustainable development.

8. Ethics

Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.

9. Individual and Team Work

An ability to Function effectively as an individual, and as a member or leader in diverse teams.

10. Communication

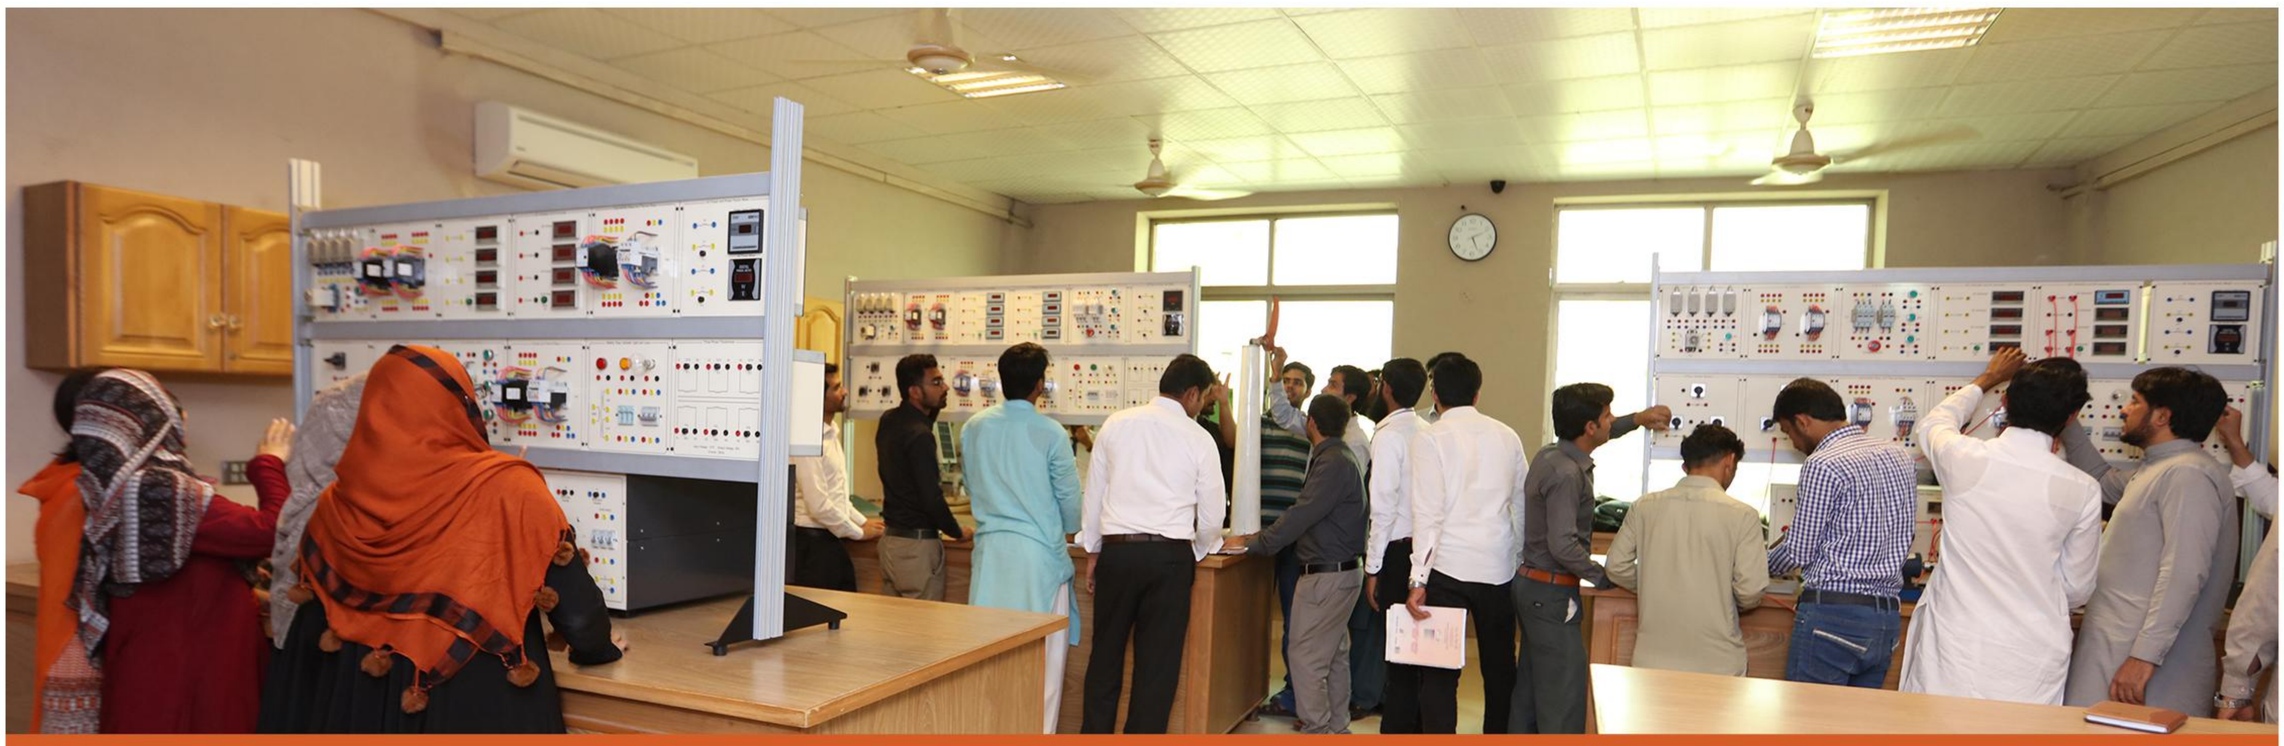
An ability to communicate effectively, oral as well as in writing, on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project Management

An ability to demonstrate management skills and apply engineering principles to one's own work, as a member and/or leader in a team, to manage projects in a multidisciplinary environment.

12. Life Long Learning

An ability to recognize the need for, and have the preparation and ability to engage in, independent and life-long learning in the broadest context of technological change.



BSc ELECTRICAL ENGINEERING

DEPARTMENT OF ELECTRICAL ENGINEERING & TECHNOLOGY

Accredited by PEC

Courses

Linear Circuit Analysis
Digital Logic Design
Signals and Systems
Electronic Devices and Circuits
Electrical Machines
Functional English
Islamic Studies
Applied Physics
Calculus and Analytical Geometry
Introduction to Computing
Workshop Practice
Basic Mechanical Engineering
Linear Algebra
Pakistan Studies
Communication Skills
Differential Equations
Engineering Drawing
Programming Fundamentals
Complex Variables and Transforms
Data Structures and Algorithms
Electrical Network Analysis
Applied thermodynamic
Professional Ethics
Probability Methods in Engineering
Numerical Analysis
Electromagnetic Field Theory
Communication Systems
Linear Control Systems
Power Generation and Utilization
Technical Report Writing
Power Transmission and Distribution
Instrumentation and Measurements
Embedded Systems
Sociology for Engineers
Power Electronics
Engineering Management
Power System Analysis
Digital Signal Processing
Electronic Circuit Design
Entrepreneurship
Power System Protection
Machine Learning
Final Year Design Project

Key Facts

Duration: 4 Years
Semesters: 08
Credit Hours: 136

Distribution of Credit Hours

42 Subjects: 130 Credit Hours
01 Project: 06 Credit Hours

Entry Requirement

F.Sc. (Pre Engineering), Relevant DAE, ICS (Physics, Mathematics & Computer Studies/Computer Science), F.Sc (Pre Medical) or equivalent with at least 1st Division and Entry Test (valid ECAT/NAT-IE/ISP Admit Test) with minimum 33% Marks.

Note:

1. In addition to the minimum qualification, candidates are required to qualify a written test and an interview for admission.
2. Courses will be offered when all conditions are met.
3. Curriculum in constant review due to its dynamic nature.
4. ISP reserves the right to change the above curriculum without any prior notice.

MSc ELECTRICAL ENGINEERING

DEPARTMENT OF ELECTRICAL ENGINEERING & TECHNOLOGY

NOC Granted by HEC

Program Educational Objectives (PEOs)

PEO i. Effectively apply electrical engineering knowledge to analyze real-life problems and design economically feasible solutions by research, innovation and utilizing modern tools.

PEO ii. Demonstrate the ability to work independently and as a team, with a sense of ethics and professionalism, and communicate effectively to manage cross-cultural and multidisciplinary teams.

PEO iii. Demonstrate a responsible attitude towards society and environment, and engage in continuous professional development.

Course Contents

Power System Modeling and Analysis
Advanced Power System Operation & Control
Liner System Theory
Stochastic Processes
Renewable Energy Systems
Advanced Power System Protection
High Voltage DC Transmission Systems
Power Generation Economics
Distributed Generation
Power Electronics Devices and Converters
Modeling and Simulation techniques
Advanced High Voltage Engineering
Advanced Electrical Machine Design
Special Purpose Electrical Machines
Advance Electrical Machines and Drives
Advanced Control Systems
Power System Transients
Power System Stability & Control
Power System Reliability
Power Quality
Energy Management
Energy Audit
Optimization Techniques in Power Systems
Flexible AC Transmission System
Power Transmission System Planning
Photovoltaic Systems
Digital Signal Processing in Power System
Switch Mode Power Supply
Power System Planning
Power System Restructuring
Research Methodology
Smart Grids

Key Facts

Duration: 1.5/2 Years
Semesters: 03/04
Credit Hours: 30

Distribution of Credit Hours

08 Subjects: 24 Credit Hours
01 Project/ Thesis 06 Credit Hours
or 2 elective courses in lieu of research.

Entry Requirement

1. Sixteen years of schooling or 4 year education in relevant field from HEC recognized Institutions (BSc Engineering/BS Tech/BSc Engg. & Tech/B. Tech Hons).
2. ISP-Admit Test conducted by the ISP Admission office or GAT-General (CAT-A) (www.nts.edu.pk/gat/gat.asp) with a minimum 50% cumulative score will be required at the time of admission.

Important Note:

For Admission in MS/MPhil/MBA/ MSC Engineering Programs, passing of ISP ADMIT TEST (By ISP Admission Office) or GAT (General) by NTS is mandatory.

ISP ADMIT TEST

This is Computer Based Test and at par with NTS GAT Test. Test will be conducted on daily basis in ISP Admission Office.

GAT by NTS

For registration for GAT Test you need to visit **www.nts.org.pk**

Syllabus for NTS GAT OR ISP ADMIT TEST

For Syllabus of both tests, please visit https://www.nts.org.pk/Products/GATGEN/gat-g-introduction.php

DEPARTMENT OF CIVIL ENGINEERING & TECHNOLOGY

Introduction

Department of Civil Engineering is a regional leader in civil engineering education. Civil engineering is a discipline that deals with the design, construction, and maintenance of the physical and naturally-built environment, including works like roads, bridges, dams, and buildings. It is one of the oldest engineering disciplines. It takes place on all levels: in the public sector from Municipal to National Governments and in the Private sector from individual homeowners to the International companies.

Civil Engineering is regarded as the mother of all engineering disciplines because it is the process of directing and controlling natural resources for the use and benefit of mankind through construction of various structures. Civil Engineering has several sub-disciplines including, Hydraulics, Structures, Geotechnical Engineering, Transportation, Construction Management, Environmental Engineering, and Surveying. In the Bachelor Degree Courses, our focus is on the development of understanding fundamental concepts and principles, which constitute the basis of Civil Engineering practice. To foster their creative abilities, the students are assigned projects on design, construction or laboratory investigations. Theory classes of different subjects are complemented by tutorials and laboratory work. The classroom and laboratory work is supplemented with instructional tours to acquaint students with the civil engineering projects of national importance and with survey camp where they plan and execute survey of large areas independently.

Mission

To impart high quality civil engineering education for producing the highly employable graduates who shall contribute in sustainable national and international socio-economic development and technological advancement through viable engineering solutions by using their professional excellence in knowledge, skill and attitude while respecting ethical norms.

Program Offered

BSc Civil Engineering (4 Years)

MSc Civil Engineering (1.5/2 Years)

FACULTY OF CIVIL ENGINEERING & TECHNOLOGY

BSc CIVIL ENGINEERING
DEPARTMENT OF CIVIL ENGINEERING & TECHNOLOGY

Program Education Objective

PEO i. Graduate, on the basis of demonstrated knowledge of civil engineering, will be able to create start-ups / firms, secure positions and work independently with effective functioning in the leading industries / organizations related to their discipline

PEO ii. Graduate will become disseminator of engineering knowledge and adopter of latest tools, techniques with an ability to handle the complex problems in the field of civil engineering

PEO iii. Graduate will become provider of innovative, viable and sustainable solutions in the problems concerning civil engineering keeping in view the social, ethical and environmental concerns

Program Learning Outcomes (PLOs)

1. Engineering Knowledge

An ability to apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems.

2. Problem Analysis

An ability to identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

3. Design Development of solution

An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

4. Investigation

An ability to investigate complex engineering problems in a methodical way including literature survey, design and conduct of experiments, analysis and interpretation of experimental data, and synthesis of information to derive valid conclusions.

5. Modren Tool Usege

An ability to create, select and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling, to complex engineering activities, with an understanding of the limitations.

6. The Engineer & Society

An ability to apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice and solution to complex engineering problems.

7. Envirement & Sustainability

An ability to understand the impact of professional engineering solutions in societal and environmental contexts and demonstrate knowledge of and need for sustainable development.

8. Ethics

Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.

9. Individual And Team Work

An ability to work effectively, as an individual or in a team, on multifaceted and /or multidisciplinary settings.

10. Communication

An ability to communicate effectively, orally as well as in writing, on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project Management

An ability to demonstrate management skills and apply engineering principles to one's own work, as a member and/or leader in a team, to manage projects in a multidisciplinary environment.

12. Life Long Learning

An ability to recognize importance of, and pursue lifelong learning in the broader context of innovation and technological developments.

Key Facts

Duration: 4 Years
Semesters: 08
Credit Hours: 136
Engineering Course: 68.38 %
Non-Engineering Course: 31.62%

Distribution of Credit Hours

51 Subjects: 130 Credit Hours
01 Project: 06 Credit Hours

Entry Requirement

F.Sc. (Pre Engineering), Relevant DAE, ICS (Physics, Mathematics & Computer Studies/Computer Science), F.Sc (Pre Medical) or equivalent with at least 1st Division and Entry Test (valid ECAT/NAT-IE/ISP Admit Test) with minimum 33% Marks.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

MSc CIVIL ENGINEERING

DEPARTMENT OF CIVIL ENGINEERING & TECHNOLOGY

NOC Granted by HEC

Course Contents

Specialization in Hydraulics and Irrigation

Advance Fluvial hydraulics
Applied hydrology
Irrigation engineering and practices
Hydraulic Structures
Hydropower Engineering
Sediment Transport
Hydrological modeling
River & Dam Engineering
Water Resources planning & management
Statistical Analysis & Research Methodology
Fluid Mechanics
Computer aided design of hydraulic Structures
Drainage Engineering
Flood Management
Application of RS & GIS in Civil Engineering
Soil Erosion & Watershed Management
Ground Water Engineering
Properties of structural materials
Reinforced concrete structures
Bridge Engineering
Project Management
Physical and numerical modelling
Pre-stress concrete

Specialization in Water Resource Engineering

Advanced Fluvial hydraulics
Applied hydrology
Water Resources planning & Management
Hydraulic Structures
River & Dam Engineering
Sediment Transport
Hydrological Modelling
Fluid Mechanics
Computer aided Design for hydraulics structures
Drainage Engineering
Flood Management
Application of RS & GIS in civil engineering
Soil Erosion & watershed management
Ground water engineering
Properties of Structural materials
Reinforced concrete structures
Bridge engineering
Statistical analysis & Research methodology
Project Management
Physical and numerical modelling
Pre-stress concrete
Irrigation engineering and practices
Hydropower engineering

Specialization in Structural Engineering

Properties of structural materials
Structural analysis
Seismic design of structures
Reinforced Concrete Structure
Pre-stress Concrete
Steel Structure
Finite element analysis
Nonlinear structural analysis
Advanced mechanics of solids
Bridge engineering
Hydraulic Structures
Structural dynamics
Advanced Fluvial hydraulics
Applied hydrology
Statistical analysis and research methodology
Hydropower engineering
Irrigation engineering and practices
Application of RS & GIS in civil engineering
Project Management
Physical and numerical modeling
River and Dam Engineering
Sediment Transport

Specialization in Engineering Management

Human Resource Management
Operations Management
Project Management
Total Quality Management
Supply Chain Management
Governance, Monitoring and Evaluation of construction projects
Risk management
Safety Management
Economic Decision Analysis
Value Engineering in Construction

Key Facts

Duration: 1.5/2 Years
Semesters: 03/04
Credit Hours: 30

Distribution of Credit Hours

08 Subjects: 24 Credit Hours
01 Project/ Thesis 06 Credit Hours
or 2 elective courses in lieu of research.

Entry Requirement

1. Sixteen years of schooling or 4 year education in relevant field from HEC recognized Institutions (BSc Engineering/BS Tech/BSc Engg. & Tech/B. Tech Hons).
2. ISP-Admit Test conducted by the ISP Admission office or GAT-General (CAT-A) (www.nts.edu.pk/gat/gat.asp) with a minimum 50% cumulative score will be required at the time of admission.

Important Note:

For Admission in MS/MPhil/MBA/ MSC Engineering Programs, passing of ISP ADMIT TEST (By ISP Admission Office) or GAT (General) by NTS is mandatory.

ISP ADMIT TEST

This is Computer Based Test and at par with NTS GAT Test. Test will be conducted on daily basis in ISP Admission Office.

GAT by NTS

For registration for GAT Test you need to visit **www.nts.org.pk**

DEPARTMENT OF MECHANICAL ENGINEERING & TECHNOLOGY

Introduction of the Department

Department of Mechanical Engineering & Technology offers undergraduate and postgraduate degree programs in Mechanical Engineering and Mechanical Engineering Technology. Department offers academic programs approved by Pakistan Engineering Council (PEC), National Technology Council (NTC) and Higher Education Commission (HEC). Department of Mechanical Engineering & Technology was established in year 2021 by the best university of Multan, Institute of Southern Punjab. We provide exhaustive education in engineering physics and mathematical principles as well as material science to design, analyze, manufacture and maintain mechanical systems, and encourage students to apply what they have learned through internship, research and projects.

Department of Mechanical Engineering & Technology is consisted of experienced faculty, well-equipped classrooms, and state-of-the-art equipment in all the in all the fifteen laboratories of Engineering Mechanics (Dynamics) Lab, Engineering Mechanics (Statics) Lab, Mechanics of Materials Lab, Thermodynamics Lab, IC Engine Lab, Heat Transfer Lab, Refrigeration & Air-Conditioning Lab, Power Plant Lab, Fluid Mechanics Lab, Mechanical Vibration Lab, Basic Electrical Engineering Lab, Instrumentation and Control Lab, Drawing Lab and Computer Lab., Mechanical Workshop.

Department of Mechanical Engineering & Technology at Institute of Southern Punjab provides continuous improvement through consultation with faculty, industry, and mechanical engineering professionals, and students. The faculty at Department of Mechanical Engineering & Technology is well qualified with experience in diversified areas including Design Engineering, Design & Manufacturing, Thermo-Fluid Science, Thermal Engineering, General Mechanical Engineering and Renewable Energy.

Program Offered

BSc Mechanical Engineering (4 Years)

MSc Mechanical Engineering (1.5/2 Years)

FACULTY OF MECHANICAL ENGINEERING & TECHNOLOGY

Lecturer

BSc MECHANICAL ENGINEERING
DEPARTMENT OF MECHANICAL ENGINEERING & TECHNOLOGY

Program Educational Objectives (PEOs)

PEO-I To produce mechanical engineering professionals and innovators capable of identifying, investigating and solving diversified problems by using their knowledge and expertise.

PEO-II To prepare mechanical engineering graduates contributing individually as well as a team member and be equipped to provide sustainable solutions of broad interdisciplinary problems using modern tools.

PEO-III To produce and enable mechanical graduates to be engaged in professional activities ethically and thereby improving the knowledge and contributing towards the society through life-long learning.

Program Learning Outcomes (PLOs)

1. Engineering Knowledge

An ability to apply knowledge of mathematics, science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems

2. Problem Analysis

An ability to identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

3. Design/Development of Solutions

An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

4. Investigation

An ability to investigate complex engineering problems in a methodical way including literature survey, design and conduct of experiments, analysis and interpretation of experimental data, and synthesis of information to derive valid conclusions.

5. Modern Tool Usage

An ability to create, select and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling, to complex engineering activities, with an understanding of the limitations.

6. The Engineer and Society

An ability to apply reasoning informed by contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to professional engineering practice and solution to complex engineering problems.

7. Environment and Sustainability

An ability to understand the impact of professional engineering solutions in societal and environmental contexts and demonstrate knowledge of, and need for, sustainable development.

8. Ethics

Apply ethical principles and commit to professional ethics and responsibilities and norms of engineering practice.

9. Individual and Team Work

An ability to Function effectively as an individual, and as a member or leader in diverse team.

10. Communication

An ability to communicate effectively, oral as well as in writing, on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

11. Project Management

An ability to demonstrate management skills and apply engineering principles to one's ownwork, as a member and/or leader in a team, to manage projects in a multidisciplinary environment

12. Lifelong Learning

An ability to recognize the need for, and have the preparation and ability to engage in, independent and life-long learning in the broadest context of technological change.

NOC Granted by HEC

PROGRAM MISSION

Mission of MSc program in Mechanical Engineering is to produce experts and professionals by providing state-of-the-art facility of post-graduate quality education in different areas of specialization of Mechanical Engineering so that these experts and professional not only enhance and excel in their knowledge, skill and management principles but also contribute their due share and play leading role for the development and progression of infrastructure of their country.

Prof. Dr. Mubashir Hussain Malik
Chairperson
Department of Computer Science & Information Technology

DEPARTMENT OF COMPUTER SCIENCE & IT

Message from Chairperson

Welcome to the Department of Computer Systems and Information Technology, a vibrant and rapidly growing department dedicated to advancing the fields of computer science and information technology. Our primary goal is to provide top-tier education that prepares students for successful careers in a world increasingly reliant on computing. In today's digital age, nearly every aspect of modern life involves some form of computing, whether it's through mobile devices, entertainment, transportation, or essential business operations. Recognizing this dependence, our programs are designed to produce skilled computer scientists and IT experts capable of driving innovation and meeting the evolving needs of society and industry. Our curriculum meets the highest standards set by accrediting bodies such as the Higher Education Commission and NCEAC, ensuring that our graduates are well-equipped to excel in their chosen fields. Our dedicated faculty members are leaders in their respective areas of expertise, conducting innovative research and providing high-quality education.

Whether you're an undergraduate, graduate, or postgraduate student, we offer a flexible and comprehensive learning experience to help you succeed in the fast-paced world of technology. We encourage you to explore our departmental website and share your feedback with us. Whether you're a student, parent, alumni, or colleague, your input is valuable as we strive for continuous improvement and excellence in education and research. Thank you for joining us on this exciting journey towards a brighter future in computing and technology.

Programs Offered

ADP (Computer Scinece) (2 Years)
BS Computer Science (4 Years)
BS Computer Science (2.5 Years)
BS Computer Science (2 Years) After ADP
MS/M.Phil Computer Science (1.5/2 Years)
Doctor of Philosophy (PhD) in Computer Science (3 Years)
ADP IT (Information Technology) (2 Years)
BS Information Technology (4 Years)
BS Information Technology (2.5 Years)
BS Information Technology (2 Years) After ADP

DEPARTMENT OF COMPUTER SCIENCE

Introduction

The Computer Science Department at ISP Multan is dedicated to fostering excellence in education, research, and innovation in the field of computing. With a commitment to staying at the forefront of technological advancements, we offer a diverse range of programs designed to equip students with the knowledge, skills, and experience needed to thrive in today's digital world. We believe in learning by doing. Our students have access to state-of-the-art labs and facilities where they can apply theoretical knowledge to real-world projects, gaining valuable hands-on experience along the way. The Computer Science Department actively promotes research and innovation. Through collaborations with industry partners and participation in academic conferences and competitions, students and faculty alike have the opportunity to contribute to the advancement of knowledge in the field. The Department is committed to provide education according to current emerging technologies and Industry trends. That's why our curriculum emphasizes key areas such as

- Artificial Intelligence
- Data Sciences
- Cybersecurity
- Software Engineering
- Networking
- Web Development
- Mobile Computing
- Cloud Computing
- Image Processing

Programs Offered

ADP (Computer Scinece) (2 Years)
BS Computer Science (4 Years)
BS Computer Science (2.5 Years)
BS Computer Science (2 Years) After ADP
MS/M.Phil Computer Science (1.5/2 Years)
Doctor of Philosophy (PhD) in Computer Science (3 Years)

BS COMPUTER SCIENCE (BSCS)

DEPARTMENT OF COMPUTER SCIENCE

Program Education Objectives (PEO)

PEO-I: Apply computing knowledge and skills to solve computing problems.

PEO-II: Manage projects to refinement inter-personal and communication skills by individual/team work.

PEO-III: Establish ethical values, life-long learning, attitude, and social responsibilities.

Program Learning Outcomes(PLOs)

1 Academic Education : To prepare graduates as computing professionals

2 Knowledge for Solving Computing Problems: Apply knowledge of computing fundamentals, knowledge of a computing specialization, and mathematics, science, and domain knowledge appropriate for the computing specialization to the abstraction and conceptualization of computing models from defined problems and requirements.

3 Problem Analysis: Identify, formulate, research literature, and solve complex computing problems reaching substantiated conclusions using fundamental principles of mathematics, computing sciences, and relevant domain disciplines.

4 Design/ Development of Solutions: Design and evaluate solutions for complex computing problems, and design and evaluate systems, components, or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations.

5 Modern Tool Usage: Create, select, adapt and apply appropriate techniques, resources, and modern computing tools to complex computing activities, with an understanding of the limitations.

6 Individual and Team Work: Function effectively as an individual and as a member or leader in diverse teams and in multi-disciplinary settings.

7 Communication: Communicate effectively with the computing community and with society at large about complex computing activities by being able to comprehend and write effective reports, design documentation, make effective presentations, and give and understand clear instructions.

8 Computing Professionalism and Society: Understand and assess societal, health, safety, legal, and cultural issues within local and global contexts, and the consequential responsibilities relevant to professional computing practice

9 Ethics: Understand and commit to professional ethics, responsibilities, and norms of professional computing practice

10 Life-long Learning: Recognize the need, and have the ability, to engage in independent learning for continual development as a computing professional

ASSOCIATE DEGREE PROGRAM COMPUTER SCIENCE (ADP-CS)

DEPARTMENT OF COMPUTER SCIENCE

(MORNING/WEEKEND)

Course

- Programming Fundamentals
- Application of Information & Communication Technologies
- Quantitative Reasoning - 1 (Discrete Structures)
- Quantitative Reasoning - 2 (Calculus & Analytical Geometry)
- Functional English
- Object Oriented Programming
- Database Systems
- Digital Logic & Design
- Expository Writing
- Linear Algebra
- Data Structure
- Information Security
- Artificial Intelligence
- Computer Networks
- Software Engineering
- Computer Organization & Assembly Language
- Elective - 1 (CS Elective - Lab)
- Elective - 2 (CS Elective - Lab)
- Elective - 3 (CS Elective - Lab)
- Elective - 4 (CS Elective - Lab)
- Elective - 5 (CS Elective - Lab)
- Islamic Studies
- Entrepreneurship
- Ideology & Constitution of Pakistan

Key Facts

Duration: 2 Years
Semesters: 04
Credit Hours: 66

Distribution of Credit Hours

22 Subjects: 66 Credit Hours

Entry Requirement

Intermediate or equivalent

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

Software Project

Key Facts

Duration: 2 Years
Semesters: 04
Credit Hours: 64
No. of Courses: 20

Entry Requirement

ADP in relevant education with at least 2nd division

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

MS COMPUTER SCIENCE (MORNING/WEEKEND)

DEPARTMENT OF COMPUTER SCIENCE

Course

- Advanced Analysis of Algorithms
- Advanced Theory of Programming Language
- Advanced Operating Systems
- Advanced Computer Networks
- Advanced Data Mining Techniques
- Advanced Computer Vision
- Digital Image Processing
- Scientific Research Methods
- Natural Language Processing
- MS-Project

Key Facts

Duration: 1.5/2 Years
Semesters: 03/04
Credit Hours: 30

Distribution of Credit Hours

10 Subjects: 24 Credit Hours
01 Project: 06 Credit Hours
or 2 elective courses in lieu of research.

Entry Requirement

1. Sixteen years of schooling or 4 year education in relevant field from HEC recognized DAI will be required for admission.
2. ISP-Admit Test conducted by the ISP Admission office or GAT-General (CAT-C) (www.nts.edu.pk/gat/gat.asp) with a minimum 50% cumulative score will be required at the time of admission.

Important Note:

For Admission in MS/MPhil/MBA/ MSC Engineering Programs, passing of ISP ADMIT TEST (By ISP Admission Office) or GAT (General) by NTS is mandatory.

ISP ADMIT TEST

This is Computer Based Test and at par with NTS GAT Test. Test will be conducted on daily basis in ISP Admission Office.

GAT by NTS

For registration for GAT Test you need to visit **www.nts.org.pk**

Syllabus for NTS GAT OR ISP ADMIT TEST

For Syllabus of both tests, please visit

Advances in Software Project Management
Advances in Internet of Things
High Performance Computing

Key Facts

Duration: 3 Years
Semesters: 06
Credit Hours: 30

Entry Requirement

- MS/M.Phil.(18 years of education with research degree) in discipline of Computer Science, Information Technology, Software Engineering, Information Security, Artificial Intelligence, Data Sciences subjects from HEC recognized university.
- The Minimum CGPA 3.0 out of 4.0 (Semester System) or 70% Marks (Annual System) is required.
- NTS GAT (Subject) score atleast 60% or International GRE Subject score atleast 60% or must qualify departmental test with atleast 70% score.
- Interview conducted by DRC (Departmental Review Committee).
- Any Other Requirement from HEC or Department.

DEPARTMENT OF INFORMATION TECHNOLOGY

Introduction

The Information Technology Department at ISP Multan is committed to providing students with the knowledge, skills, and experiences needed to excel in today's rapidly evolving digital landscape. We offer a wide range of programs designed to prepare students for successful careers in the field of information technology. The Information Technology Department maintains strong connections with industry partners, ensuring that our programs remain relevant and aligned with current industry standards and practices. Through internships, and industry projects, students have the opportunity to engage with professionals and gain insights into the latest trends and developments in the field. We encourage and support research and innovation in information technology. Whether it's exploring new technologies, developing innovative solutions to real-world problems, or contributing to academic research, students and faculty alike have the opportunity to make meaningful contributions to the field.. Our curriculum is designed to cover a broad spectrum of topics relevant to the field of information technology, including:

- Software Development
- Database Management
- Network Administration
- Web Development
- Cybersecurity
- Cloud Computing
- Mobile App Development
- IT Project Management

Programs Offered

Dr. Abdul Ghafoor Awan
Dean, Faculty of Management Sciences

FACULTY OF MANAGEMENT SCIENCES

Introduction

As the Dean of the Faculty of Management Sciences at the Institute of Southern Punjab (ISP), Multan, it fills me with immense joy to participate in crafting such productive lines.

Our faculty comprises the Southern Business School, the Department of Economics, and the Department of Commerce, each playing a crucial role in shaping the future of our students and contributing to the advancement of knowledge in their respective fields.

At ISP, we recognize the significance of bridging the gap between industry and academia, and Southern Business School, stands as a beacon in this Endeavor. Through rigorous academic programs and practical experiences, we prepare our students to become future leaders who can navigate the complexities of the global business landscape with confidence and competence.

Management studies are integral to understanding the dynamics of modern organizations and driving sustainable growth. Our faculty is committed to providing a holistic education that not only equips students with technical skills but also fosters critical thinking, ethical leadership, and a global perspective.

Southern Business School

Department of Commerce

Dr. Muhammad Azeem Ahmad
Head, Southern Business School

SOUTHERN BUSINESS SCHOOL

Introduction

I proudly unveil Southern Business School, a beacon of excellence within the renowned Institute of Southern Punjab (ISP) in Multan.

At our department, we pride ourselves on bridging the gap between industry and academia, ensuring our students are equipped with the knowledge and skills necessary to excel in today's dynamic business environment. As the cornerstone of ISP, Southern Business School is committed to nurturing future leaders who will drive innovation, foster growth, and make meaningful contributions to society.

Management studies are vital in navigating the complexities of modern business, providing a comprehensive understanding of organizational dynamics, strategic planning, and effective leadership. Our vision is o vitalize academic leadership and contribute value to both business and society through the diffusion of knowledge, practices, and skills of management.

Southern Business School, where excellence meets opportunity, and together, let's embark on a journey of knowledge, growth, and success.

Programs Offered:

BBA (4 Years)

2. Have passed GAT Subject with 60% marks or ISP admission test with 70% marks
3. Have passed an interview conducted by the Department of Business Administration.

DEPARTMENT OF COMMERCE

Introduction

In modern complex world, changes are taking place rapidly due to emergence of new techniques and development in Commerce, Banking and Industrial sectors. These developments have resulted in the change of recruitment policies of employers. Now, they employ those graduates against managerial positions who possess the required skills and are equipped with the latest sophisticated tools and techniques to tackle different complex business decision situations. Thus, to meet the challenges of today and tomorrow and to cater the needs of the Industrial and services sectors, ISP management decided to introduce a two-year M.Com Program and to establish the Department of Commerce at the Campus. The aim of the department is to provide experts of finance management and finance-solution providers to the nation. Furthermore, we work for developing students' financial, entrepreneurial and business skills through practical application of various subjects; i.e. Accountancy, Finance, Management and Marketing. The Department aims at promoting finance research on various local and national issues. Library serves as a resource center for scholars, researchers and trend-setters particularly of alumni of the University / Institute. In fact, library plays vital and pivotal role in the domain of University / Institute academic life in providing cutting-edge information and helps keep abreast with the changing times. The Department houses a well-stocked library containing a collection of national and international journals. Computer facilities are also available to the staff and research students. We not only impart depth of knowledge and skills to the students in finance, accountancy and management, but also focus on making our students more productive human beings. This is why our graduates are second to none in the competitive national and international markets.

Department of Fine Arts

Department of Islamic Studies

Department of Urdu

DEPARTMENT OF ECONOMICS

Introduction

Department of Economics is an old Department of Institute of Southern Punjab (ISP) and it has been functioning since 2010. It is offering different programs: BS Economics 4 years, BS Economics 2.5 years, BS Economics 2 years and M.Phil. Economics 2 years. The Department has not only maintained high quality standard of teaching and learning but also developed rigorous research activities. So far more than 200 students have been completed their M.Phil with research work on different national and international economic issues and serving in different public and private organizations at higher positions. More than 100 research papers of the faculty and students of this Department have been published in impact factor and HEC recognized journals. The students from all over the country and particularly from Southern Punjab prefer to study at the Department of Economics due to its friendly-learning environment, market-oriented Performs and advanced physical and technological structure.

The faculty of the Department is very experienced, friendly and forward looking. It focuses on knowledge sharing and knowledge transferring from academia to the learners. It builds students' capacity to cope with complex economic challenge and contribute in economic development of the country. The Department has a state-of-the-art Library equipped with latest text books on Economics and other related discipline. It also has a formal research Centre where all necessary facilities are available to carry out research. The core objective of this Department is to produce efficient and knowledgeable economists having analytical capability so that they may be able to solve complex economic issues after completing their education.

VISION

The vision of the Department of Economics is "to produce economists who meet national and international economic challenges and develop problem diagnosing and problem-solving skill through rigorous knowledge transferring and knowledge sharing. The focus of all programs is to value creation. This vision is aligned to the vision of ISP, which emphasizes integration of teaching, outcome learning, advancement of knowledge and best competitive environment and state of the art infrastructure."

MISSION

The mission of the Department of Economics is "to develop human resources and transform them into human capital through rigorous teaching, training and research so that the students may significantly contribute in national development. This mission is accomplished through providing state of the art infrastructure, quality education and rigorous training so that the students, after completing their education, must not only be an innovative, charismatic, knowledgeable but also a perfect leaders and good citizens. This mission is aligned with ISP's mission, which stresses upon the need of inculcating professional knowledge, skill and ethical values among the students.

Dr. Umbreen Khizar
HOD, Department of Psychology

DEPARTMENT OF PSYCHOLOGY

Introduction

Psychology is defined as the science of behavior and mental processes. The study of psychology is a demanding field in all over the world. Psychological studies are highly practical and research oriented. Various fields of psychology are flourishing in Pakistan like, clinical psychology, Industrial Psychology, Educational; Military, Criminology, Disaster Management and others. Psychometric is one of most demanding fields in Psychology which has vast implication into clinical and industrial framework. Psychological fields are; Cognitive, Comparative, Developmental, Educational and school, Evolutionary, Personality, Social and Positive psychology

Vision

The Department of Psychology aspires to be a great institute in the Southern Punjab for the education in psychology, and be at the cutting edge of scientific research, development, clinical practice and teaching in psychology

Mission

- To contribute to public understanding of psychology and its applications in education and beyond;
- To promote human development, learning, health, and well-being through high quality education, research, and services;
- To nurture students into becoming intellectually competent through scientific studies of human behavior, emotion, and thoughts;
- To cultivate in students professional ethics, a sense of social responsibility, cultural sensitivity, and good citizenship in a globalized world;
- To engage in high quality and high impact research both within and across disciplines;
- To cultivate collegiality and support for the career development of staff.

DEPARTMENT OF MASS COMMUNICATION

Introduction

The Department of Mass Communication has the individuality to establish in the initial years of the formation of the Institute of Southern Punjab. The department of Mass Communication was started in 2010, and offered M.Sc. Mass Communication to educate the students of Media Studies. Later; Bachelor of Mass Communication a four years program was started on the directive of Higher Education Commission of Pakistan to cultivate in-depth understanding and knowledge in the field of Mass Communication. The Department of Mass Communication has passed out four batches. The graduates are serving in academia, as Public Relation Officers in government and private sector, Electronic, and Print Media and producing incredible programs.

The importance of Mass Communication discipline is dynamic in technological empowered world. The Department of Mass Communication must enjoy the equal status of Information and Communication technology. For the reason that the Mass Communication field provides multidimensional knowledge, education, information, entertainment, interpretation and awareness. It's a saying, "Knowledge is not a right it's a privilege". If the knowledge and information is used elegantly .It can prove a weapon, treasure or assets. The societies are dependent for Mass Media for their healthy survival and progress. Because; the information and right time information helps in accelerating the progress and development of social institution and individuals. The department of mass communication ISP is achieving this goal effectively.

VISION

The vision of the Department of Mass Communication is to produce energetic communication experts. They will have command to communicate their knowledge and acquired professional skills in all specialized fields of mass communication like Print, Radio TV production, Public Relation & Advertising, Digital Media , Drama & Film Production, and Theory and Communication Research.

MISSION

The program aims to trained graduates with essential theoretical knowledge and advanced practical skills required to perform their jobs in media industry. The course trains the students to report and analyze issues profoundly with truthfulness, objectivity, and creativity during academic program and professional life.. Further; we aim to impart critical thinking, moral and ethical responsibility as a media practitioner.

Dr. Muhammad Anwar Chaudhary
Chairman, Department of Mathematics

DEPARTMENT OF MATHEMATICS & STATISTICS

INTRODUCTION

The Department of Mathematics and Statistics started functioning in 2011. It started its M.Sc. (Mathematics) and M.Phil. (Mathematics) programs in 2011 and 2013, respectively. Pursuing the policy of the Government of Pakistan to start B.S. programs in the universities, the Department started its BS Mathematics (04 Years) program in 2013. Further, the department started its M.Phil. (Statistics) and M.Sc. (Statistics) programs in 2021 and 2022, respectively. Moreover, as per the policy of the Government of Pakistan ADP (Mathematics) and ADP (Statistics) were started in 2022 respectively. The Department also started its BS Mathematics (2.5 Years) in October 2021, BS Statistics (04 Years) and BS Statistics (2.5 Years) programs in March 2022.

The Department is imparting instructions in the following areas of Mathematics and Statistics; (a) Pure Mathematics (b) Applied Mathematics (c) Computational Mathematics (d) Pure Statistics (e) Applied Statistics. Moreover, the department started its Ph.D. program in 2023.

The Department has 16 permanent members on its faculty, out of whom 10 are PhD degree holders and the remaining have M. Phil. degrees. The faculty of the department is highly qualified and considerate for its students. The teachers have very strong passion and capacity to impart quality education and guide good research to the students of the department.

Our programs are so designed that they not only meet the HEC criteria but also enable the students to pursue higher studies and to contribute towards the socio-economic development of the country by joining educational institutions, financial institutions, research organizations, Government and private organizations, Armed forces, Apart from giving the subject knowledge to the students, our stress is to inculcate in the students highly moral and ethical values befitting of an honest and dedicated person.

The department has all-time access to a well-equipped and well-furnished computer laboratory. This lab is providing computational facilities to our students and teachers. The department is availing the facility of the central library of the institution having more than 7000 books. The collection includes the latest titles in various areas of Mathematics and Statistics. The department is also availing the facility of research rooms and HEC digital library. The faculty and research students of the department are engaged in research activities in the areas of Algebra, Differential Equations, Numerical Analysis, Topology, Graph Theory, Fluid Mechanics, Mathematical Inequalities, Partial Differential Equations and Linear Programming. The career support program of the Institution is extremely helpful for grooming the personalities of the students and their character building.

VISION

To be among the best Mathematics and Statistics departments in the country and to establish a reputation as a department widely recognized for its good quality teaching and research.

MISSION

The mission of the department is to provide quality teaching and good research environment to its students by establishing effective undergraduate and graduate programs which can produce trained manpower capable of contributing to the advancement of knowledge and improvement of socio-economic conditions at national and international level.

Programs Offered

ADP Mathematics (2 Years)
BS Mathematics (4 Years)
BS Statistics (4 Years)
BS Mathematics (2.5 Years)
BS Statistics (2.5 Years)
BS Mathematics (2 Years)
BS Statistics (2 Years)
M. Phil Matehmatics (1.5/2 Years)
M. Phil Statistics (1.5/2 Years)
PhD Matehmatics (3 Years)

ADP MATHEMATICS (2 YEARS) (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Course Contents

Calculus I
Mathematical Statistics I
Functional English
Ideology and Constitution of Pakistan
Islamic Studies/Ethics
Mechanics OR Computer Programming with PYTHON
Translation of the Holy Qur'an I
Calculus II
Quantitative Reasoning I
Mathematical Software Package (MATLAB/MAPLE)
Information and Communication Technologies (ICT)
Arts and Humanities
Electricity and Maganatism OR Data Analysis with Spreadsheet
Translation of the Holy Qur'an II
Calculus III
Discrete Mathematics
Mathematical Statistics II
Expository Writing
Social Sciences
Modern Physics and Electronics OR Machine Learning
IQuantitative Reasoning II
Translation of the Holy Qur'an III
Vector and Tensor Analysis
Modern Algebra I
Differential Geometry
Entrepreneurship
Civics and Community Engagement
Waves and Osscilations OR Machine Learning II
Natural Sciences
Translation of the Holy Qur'an IV

Key Facts

Duration: 2 Years
Semesters: 04
Credit Hours: 74
No. of Courses: 30

Entry Requirement

Intermediate or equivalent

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BACHELOR OF MATHEMATICS

Elective II
Elective III
Translation of the Holy Qur'an VII
Optimization Theory
Elective IV
Elective V
Elective VI
Capstone Project
Translation of the Holy Qur'an VIII

Key Facts

Duration: 04 Years
Semesters: 08
Credit Hours: 142
Number of Courses: 55

Entry Requirement

Intermediate or equivalent with at least 2nd Division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BACHELOR OF STATISTICS
DEPARTMENT OF MATHEMATICS & STATISTICS

BS STATISTICS

COMPULSORY COURSES

Introductory Statistics
Calculus-I
Functional English
Ideology and Constitution of Pakistan
Islamic Studies/Ethics
Machine Learning I OR Micro-Economics
Translation of the Holy Qur'an I
Natural Sciences
Mathematical Statistics I
Calculus II
Information and Communication Technologies (ICT)
Arts and Humanities
Data analysis with spreadsheet OR Macro Economics
Basic Statistical Inference
Quantitative Reasoning I
Expository Writing
Social Sciences
Decision Theory
Machine learning II OR Principles of Marketing
Mathematical Statistics II
Translation of the Holy Qur'an III
Introduction to Probability and Distributions
Introduction to Regression and Analysis of Variance
Entrepreneurship
Quantitative Reasoning II
Mathematical Models and Simulation
Introduction to deep learning OR
Business Mathematics and Statistics
Civics and Community Engagement
Translation of the Holy Qur'an IV

Probability Distribution-1
Sampling Technique-I
Design & Analysis of Experiment-I
Regression Analysis
Statistical Packages
Exploratory Data Analysis and Visualization
Translation of the Holy Qur'an V
Probability Distribution-II
Sampling Techniques-II
Design & Analysis of Experiment-II
Bayesian Inference
Official Statistics
Translation of the Holy Qur'an VI
Statistical Inference-1
Econometrics
Elective I
Elective II
Elective III
Translation of the Holy Qur'an VII
Statistical Inference-II
Elective IV
Elective V
Elective VI
Capstone Project
Translation of the Holy Qur'an VIII

Key Facts

Duration: 04 Years
Semesters: 08
Credit Hours: 142
Number of Courses: 55

Entry Requirement

Intermediate or equivalent with at least 2nd Division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BS MATHEMATICS (2.5 YEARS) AFTER BA/BSC/B.COM (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Course Contents

Calculus
Mathematical Software Package (MATLAB/MAPLE)
Vector and Tensor Analysis
Discrete Mathematics
Modern Algebra I
Real Analysis I
Modern Algebra II
Ordinary Differential Equations
Classical Mechanics
Numerical Analysis I
Mathematical Methods
Translation of the Holy Qur'an V
Linear Algebra and Applications
Partial Differential Equations
Complex Analysis
Introduction to Topology
Real Analysis II
Translation of the Holy Qur'an VI
Functional Analysis
Measure Theory I
Elective I
Elective II
Elective III
Translation of the Holy Qur'an VII
Optimization Theory
Elective IV
Elective V
Elective VI
Capstone Project
Translation of the Holy Qur'an VIII

Key Facts

Duration: 2.5 Years
Semesters: 05
Credit Hours: 83
No. of Courses: 30

Entry Requirement

BA/BSc/B.Com or equivalent with at least 2nd division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BS STATISTICS (2.5 YEARS) AFTER BA/BSC/B.COM (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Course Contents

Calculus-I
Calculus II
Introductory Statistics
Regression Analysis
Mathematical Statistics-I
Introduction to Probability Distributions
Probability Distribution-1
Sampling Technique-I
Design & Analysis of Experiment-I
Regression Analysis
Statistical Packages
Exploratory Data Analysis and Visualization
Translation of the Holy Qur'an V
Probability Distribution-II
Sampling Techniques-II
Design & Analysis of Experiment-II
Bayesian Inference
Official Statistics
Translation of the Holy Qur'an VI
Statistical Inference-1
Econometrics
Elective I
Elective II
Elective III
Translation of the Holy Qur'an VII
Statistical Inference-II
Elective IV
Elective V
Elective VI
Capstone Project
Translation of the Holy Qur'an VIII

Key Facts

Duration: 2.5 Years
Semesters: 05
Credit Hours: 86
Number of Courses: 31

Entry Requirement

BA/BSc/B.Com or equivalent with atleast 2nd division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BS MATHEMATICS (2 YEARS) AFTER ADP (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Course Contents

Real Analysis-I
Modern Algebra-I
Complex Analysis
Ordinary Differential Equations(ODE)
Vector and Tensor Analysis
Real Analysis-II
Modern Algebra-II
Set Topology
Classical Mechanics
Partial Differential Equation(PDE)
Differential Geometry
Real Analysis-II
Modern Algebra-II
Set Topology
Classical Mechanics
Partial Differential Equation(PDE)
Differential Geometry
Functional Analysis I
Numerical Analysis-I
Probability Theory
Mathematical Methods-I
Elective-I
Elective-II
Integral Equations
Numerical Analysis-II
Mathematical Statistics-II
Elective-III
Elective-IV

Key Facts

Duration: 2 Years
Semesters: 04
Credit Hours: 69
No. of Courses: 23

Entry Requirement

ADP in relevant Education with at least 2nd division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

BS STATISTICS (2 YEARS) AFTER ADP (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Course Contents

Probability Distribution-1
Sampling Technique-I
Design & Analysis of Experiment-I
Regression Analysis
Statistical Packages
Probability Distribution-II
Sampling Techniques-II
Design & Analysis of Experiment-II
Econometrics
Bayesian Inference
Official Statistics
Statistical Inference-1
Bio statistics
Applied Multivariate Analysis
Time Series Analysis
Elective I
Elective-II
Statistical Inference-II
Population Studies
Research Project / Internship
Elective-III
Elective-IV
Operations Research

Key Facts

Duration: 2 Years
Semesters: 04
Credit Hours: 69
No. of Courses: 23

Entry Requirement
ADP in relevant Education with at least 2nd division.

Note:

1. Courses will be offered when all conditions are met.
2. Curriculum in constant review due to its dynamic nature.
3. ISP reserves the right to change the above curriculum without any prior notice.

M. PHIL IN MATHEMATICS (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS

Course Contents

Research Methodology
Non-Linear Ordinary Differential Equations-I
Elective I
Elective II
Advanced Functional Analysis
Advanced Partial Differential Equations
Elective III
Elective IV
Thesis(continued) or 2 Elective courses
Thesis

List of Core Courses

Research Methodology
Non-Linear Ordinary Differential Equations-I
Advanced Functional Analysis
Advanced Partial Differential Equations

Elective Courses

Advanced Numerical Analysis
Theory of Fluids
Mathematical Inequalities
Graph Theory
Linear Programming
Fixed Point Theory
Heat Transfer Analysis
Commutative Algebra
Numerical Solution of Partial Differential Equations-I
Compressible Flows
Magneto- Hydrodynamics
Computational Fluid Dynamics for Laminar Flows
Parallel Scientific Computing
Fourier Series-I
Near Rings-I
Algebraic Topology-I
Computer Graphics
Computer Aided Geometric Design-I
Perturbation Analysis
Linear Algebra
Advanced Fluid Dynamics-I
Classical Electrodynamics-I
Advanced Electromagnetic Theory-I
Theory of B- Splines
Approximation Theory
Theory of Rings-I
Computer Aided Geometric Design-II
Non- Linear Programming
Fourier Series-II
Non-Linear Ordinary Differential Equations-II
Theory of Wavelets
Advanced Fluid Dynamics-II
Classical Electrodynamics-II
Advanced Electromagnetic Theory-II
Wave Propagation
Ostrowski Type Inequalities and Applications
Fixed Point Iterations

Key Facts

Duration: 1.5/2 Years
Semesters: 03/04
Credit Hours: 30

Distribution of Credit Hours

08 Subjects: 24 Credit Hours
01 Project: 06 Credit Hours
or 2 elective courses in lieu of research.

Entry Requirement

1. Sixteen years of schooling or 4 year education in relevant field from HEC recognized DAI will be required for admission.
2. ISP-Admit Test conducted by the ISP Admission office or GAT-General (CAT-C) (www.nts.edu.pk/gat/gat.asp) with a minimum 50% cumulative score will be required at the time of admission.

Important Note:

For Admission in MS/MPhil/MBA/ MSC Engineering Programs, passing of ISP ADMIT TEST (By ISP Admission Office) or GAT (General) by NTS is mandatory.

ISP ADMIT TEST

This is Computer Based Test and at par with NTS GAT Test. Test will be conducted on daily basis in ISP Admission Office.

GAT by NTS

For registration for GAT Test you need to visit **www.nts.org.pk**

Syllabus for NTS GAT OR ISP ADMIT TEST

https://www.nts.org.pk/Products/GATGEN/gat-g-introduction.php

M. PHIL IN STATISTICS (MORNING/WEEKEND)

DEPARTMENT OF MATHEMATICS

The M. Phil programme is designed to create academic researchers as well as professionals who are capable of conducting policy analysis, relating to national and global economic and development issues, from a quantitative and inter-disciplinary perspective. While an interdisciplinary approach is encouraged, the programme lays somewhat larger emphasis on economics to provide an integrated framework within which various development issues can be addressed.

In the past, M.Phil students from ISP have been placed in the corporate sector. Some of our students pursue their doctorates, either in Pakistan or abroad. In the last five years, our students have got admission with financial support from renowned universities abroad.

The objective is to produce noble thinkers, effective users and leading researchers in Statistics. MPhil program in Statistics combines in it an approach based on cross-disciplinary interactions and understandings in a supportive environment, necessary for an individual's growth as a critical thinker here and after.

Course Contents

Advance Method in Statistical Quality Control
Applied Stochastic Model
Elective-I
Elective-II
Advance Design of Experiment
Time Series Analysis
Elective-III
Elective-IV
Thesis(continued)
OR
2 Elective Courses
Thesis

Core Courses

Advance Method in Statistical Quality Control
Applied Stochastic Model
Advance Design of Experiment
Time Series Analysis for forecasting

Elective Courses

Advanced Probability Theory
Advanced Statistical Inference I
Advanced Statistical Inference II
Linear Model and Regression Analysis I
Linear Model and Regression Analysis II
Advanced Multivariate Analysis
Regression Models for Count Data
Advanced Categorical Data Analysis
Logical Reasoning and Research Methods
Survey Sampling
Longitudinal Data Analysis
Survival Data Analysis
Spatial Data Analysis
Advanced Distribution Theory
Inference in Stochastic Processes
Advanced Bayesian Inference
Optimization Techniques
Ecological Statistics
Statistical Methods for Clinical Trials
Bayesian Inference
Financial Stochastic Models
Statistical Genetics
Generalized Linear Models
Meta-Analysis
Decision Trees
Generalized Linear Mixed Models
Advanced Operations Research
Multilevel Modeling
Environmental Statistics
Applied Smoothing Techniques
Convergence in Probability
Structural Equation Models
Casual Inference
Measure Theory and Integration
Advanced Statistical Theory

Key Facts

Duration: 1.5/2 Years
Semesters: 03/04
Credit Hours: 30

Distribution of Credit Hours

08 Subjects: 24 Credit Hours
01 Project: 06 Credit Hours
or 2 elective courses in lieu of research.

Entry Requirement

1. Sixteen years of schooling or 4 year education in relevant field from HEC recognized DAI will be required for admission.

PHD MATHEMATICS (WEEKEND)

DEPARTMENT OF MATHEMATICS & STATISTICS

Curriculum

Elective I
Elective II
Elective III
Elective IV
Elective V
Elective VI
Research Thesis

PhD Fields

Mathematical Inequalities
Graph Theory
Fixed Point Theory
Algebra
Partial Differential Equations
Fluid Mechanics

Elective Courses

Viscous Fluids I
Optimization Theory
Perturbation Method I
Advanced Fixed-Point Theory
Numerical Solutions of Ordinary Differential Equations
Topics in Ring Theory
Numerical Linear Algebra
Approximation Theory and Application
Lattice Theory
Variational Inequalities and Applications
Integral Inequalities
Numerical Solutions of Partial Differential Equations I
Newtonian Fluid Mechanics
Physical Turbulent Flows
Advanced Topics in Graph Theory
Commutative Algebra I
Advanced Topology I
General Relativity
Numerical Optimization
Cryptography
Finite Fields
Fuzzy Logic and its Applications
Parallel Solutions of Partial Differential Equations
MHD and Porous Media
Advanced Modern Algebra with Applications
Representation Theory of Finite Groups
Classical Theory of Fields
Momentum and Thermal Boundary Layer Theory
Stochastic Processes
Convolutions in Geometric function Theory
Semigroup Theory
Financial Mathematics
Mathematical Techniques for Boundary Value Problems
Heat and Mass Transfer
Relativistic Theory of Black Holes
Theory of Abel Grassmann's Groupoids
Symmetry Methods in Differential Equations
General Linear Models
Rings and Modules
Continuum Mechanics
Numerical Simulation of Reactive Flows
BCI Algebras
Direct and Inverse Problems in Wave Propagation
Commutative Algebra and Algebraic Geometry
Hilbert Space Methods
Fuzzy Graphs and Hypergraphs
Topics in Numerical Analysis I
Topics in Measure Theory
Fractional Calculus
Advanced Partial Differential Equations
Elastodynamics
Fluid and Thermodynamics
Magneto Hydrodynamics
Fractional Differential Equations
Fuzzy Group Theory
Non-Newtonian Fluid Mechanics
Advanced Mathematical Analysis
Advanced Linear Algebra
Advanced Integral Equations
Graph Valuation Theory
Advanced Analytic Dynamics
Advanced Convex Analysis
BCK Algebra Theory
Advanced Numerical Analysis
Theory of Spline Functions
Viscous Fluid II
Representation Theory
Advanced Measure Theory
Complex Analysis of Several Variables
Spectral Methods in Fluid Dynamics
Fuzzy Analysis
Advanced Topics in Graph Valuation Theory
Complexity Theory
Turbulence Modeling
Advanced Differential Equations
Commutative Algebra II
Perturbation Methods II
Boundary Layer Flows
Homological Algebra
Field Extension and Galois Theory
Numerical Solutions of Partial Differential Equations II
General Relativity
Topics in Numerical Analysis II
Near Ring II

Key Facts

Duration: 03 Years
Semesters: 06

Entry Requirement

1.Have an MS/M.Phil. (Mathematics) /Equivalent degree in 1st Division or minimum CGPA 3.00 out of 4.00
2.Have passed GRE Mathematics (International) with 60% marks or ISP admission test with 70% marks
3.Have passed an interview conducted by the Department of Mathematics.

Accredited by PCATP (Pakistan Council of Architects & Town Planners)

Ar. Tariq Mehmood
HOD,
Department of Architecture

DEPARTMENT OF ARCHITECTURE

Introduction of HOD

A professional licensed Architect, Obtained B-Arch (1986) from National College of Arts, Lahore Pakistan and M-Arch (1990) Architecture Design/Construction Management from University of Idaho, USA. Member "Royal Architectural Institute of Canada" (RAIC) and Life member "Pakistan Council of Architects & Town Planners" (PCATP) since 1987.

Diverse 38 Years of professional international experience in the field of architecture design/academia, project and construction management worked in USA, Canada and UAE. Responsible to provide strong academic leadership, manage and develop the department to ensure it achieves the highest possible standards of excellence in all its activities. Develop and sustain appropriate structures for management, consultation, decision-making and communication with staff and students.

Program Mission Statement

To impart professional architectural education that flourishes through research, critical practice, using modern tools and community engagement. The program strives to act responsibly and nimbly within changing socio economic and technical conditions maintaining core mission of architecture in relation with the sustainable development and advancement and graduates negotiate and collaborate through all genres of design, with professional attitude, knowledge and skills at national and international level to generate design artifacts and arguments with a contemporary culture and disciplinary resonance.

Vision

To provide state of the art knowledge, advancement of Architecture in the developed countries so that they may keep themselves abreast with such developments. Student's ability to create Architectural design incorporating aesthetic and technical requirements that should be environmentally sustainable.

Programs Offered

B. Architecture (5 Years Program)

DEPARTMENT OF ARCHITECTURE

Ar. Tariq Mehmood
HOD
Department of Architecture

Ar. M. Naeem Khalid
Assistant Professor
Department of Architecture

Ar. Arfan Javaid Ansari
Assistant Professor
Department of Architecture

Ar. Jahanzaib Qamar
Lecturer

Ar. Komal Wardah
Lecturer

BACHELOR OF ARCHITECTURE 5-YEARS

Department of ARCHITECTURE

Accredited by PCATP

Course Contents

Compulsory courses

English I&II
Islamic Studies
Pakistan Studies
Computer Applications I&II
Translation of Holy Quran I-VIII

Foundation courses

Free Hand Drawing I&II
Foundation Studio I&II
Visual Communication I to III
Math I,II

Major courses

Architecture Design III to VIII
Theories of Architecture I&II
History of Civilizations & Architecture I to IV
Sculpture I&II
Environmental Control I&II
Building Services & Systems I&II
Architecture in South Asia
Material & Construction I to III
Surveying
Structure I&II
Interior Design I&II
Sustainable Design
Landscape I&II
Conservation I&II
Project Management
Professional Practice
Research Methodology
Urban Design
Thesis Design I&II
Internship 6 week

Elective Courses within the major

Model making
Architectural Photography
Quantity Surveying
Urban Morphology
Philosophy of Architecture
Ergonomics of Architecture
Community Management
3D Animation
Energy and Indoor Environmental Quality
Lighting Technologies & Applications
Design for Day Lighting
Advance Construction Systems in Architecture
Anthropology
Calligraphy in Architecture
Housing and Community Development
Architecture in Pakistan
Advance Design Visualization
Zero Carbon buildings
Construction Scheduling

Key Facts

Duration:	05 Years
Semesters:	10
No. of Courses	47
Credit Hours:	173
No. of seats	45

Eligibility & Entry Requirements

Intermediate or equivalent with at least 50% marks and 50% in Aptitude/Entry Test.

Induction Weightage (%)

Admission weightage is divided as 40% for academics Matric 10%, H.S.C 30% and 60% for test.

Note:

1 Students would be required to pass the Entry-Test separately consisting Free Hand Drawing, English, Math and General Knowlegde.

2 Admission into an academic program may be refused to a student without assigning any reason.

Ar. Nazar Abbas Kazmi
HOD,
Department of Fine Arts

DEPARTMENT OF FINE ARTS

Introduction

Multan is an Ancient city famous for its cultural heritage of Arts and Crafts. The Best University in Multan (ISP) has established the Department of Fine Arts and Design to continue and promote this cultural heritage of Arts and Crafts. Department of Fine Arts and Design is concerned with Aesthetics related to the perception of Arts and Design.

From its most punctual start as one of ISP's parts, the Arts and Design Department has extended its assortment of fields to involve aptitude that traverses the globe and reaches from times long past to contemporary craftsmanship. Our faculty upholds cross-local, transnational, and transcultural methods of investigation worked around the rule of contact zones between societies. Visual art is a language that should be learned. The information on the procedure and medium structures the premise of individual articulation, and that advancement comes through comprehension and learning of visual language. We accept that inventive articulation has the ability to change the world. A craftsman is a savant, language specialist, visionary, essayist, pundit, scholar, or more all human simultaneously.

Mission

"To develop human resources by inculcating professional knowledge, skills and ethical values, offering flexible, tailored training and education solutions designed to educate, inspire and motivate individuals to bring-in prosperity in employment and citizenship."

Vision

"ISP envision as a leading institute in the integration of teaching learning, advancement of knowledge based on modern learning system at affordable cost. We are moving toward inclusive excellence through institutional transformation for economic growth and success of country by shifting the trend for traditional education to the professional education."

Programs Offered

ADP Fine Arts (2 years)
BS Fine Arts (4 years)
BS Fine Arts (2 years)
BS Fine Arts (2.5 years)
ADP Des. (Fashion Design) (2 years)
B. Des. (Fashion Design) (4 years)
B. Des. (Fashion Design) (2 years)

Prof. Dr. Saeed Ur Rehman
HOD, Department of Islamic Studies

DEPARTMENT OF ISLAMIC STUDIES

Introduction

The department of Islamic studies working under the leadership of Prof. Dr. Saeed ur Rahman. Area of Specialization is Islamic Shariah. The department of Islamic studies offered many programmers like BS Islamic Studies, ADP, MPhil Islamic studies and PhD Islamic studies. This department focuses on teaching about moral behavior, integrity and honesty, providing a spiritual foundation, promoting tolerance and compassion towards others in a diverse society.

Vision

The purpose of establishing the Department of Islamic Studies is to promote the study and implementation of Islamic education, culture, ethics and civilization, to provide the society with Islamic scholars who can unite Muslims across the country on the platform of Islamic Sharia, devote their lives to providing practical solutions to contemporary problems in the light of Islamic teachings and preaching that Islam is a religion of peace, tolerance and mutual harmony.

Mission

1.To equip our students with modern equipment.
2.To learn with innovative ideas to spread and spread the message of Islam.
3.To promote the knowledge of Islam with the contemporary world, especially in terms of quality and religious harmony.
4.To expose the modern scientific, technological and social development with the expertise of Islamic education.
5.To develop expertise in the subjects of Quran, Sunnah, Fiqh, Seerah, Islamic History, Philosophy and Sufism.
6.To promote tolerance, brotherhood, unity, moderation, broad-mindedness, moral and love with other Islamic values among the Muslim Ummah and world of humanity.

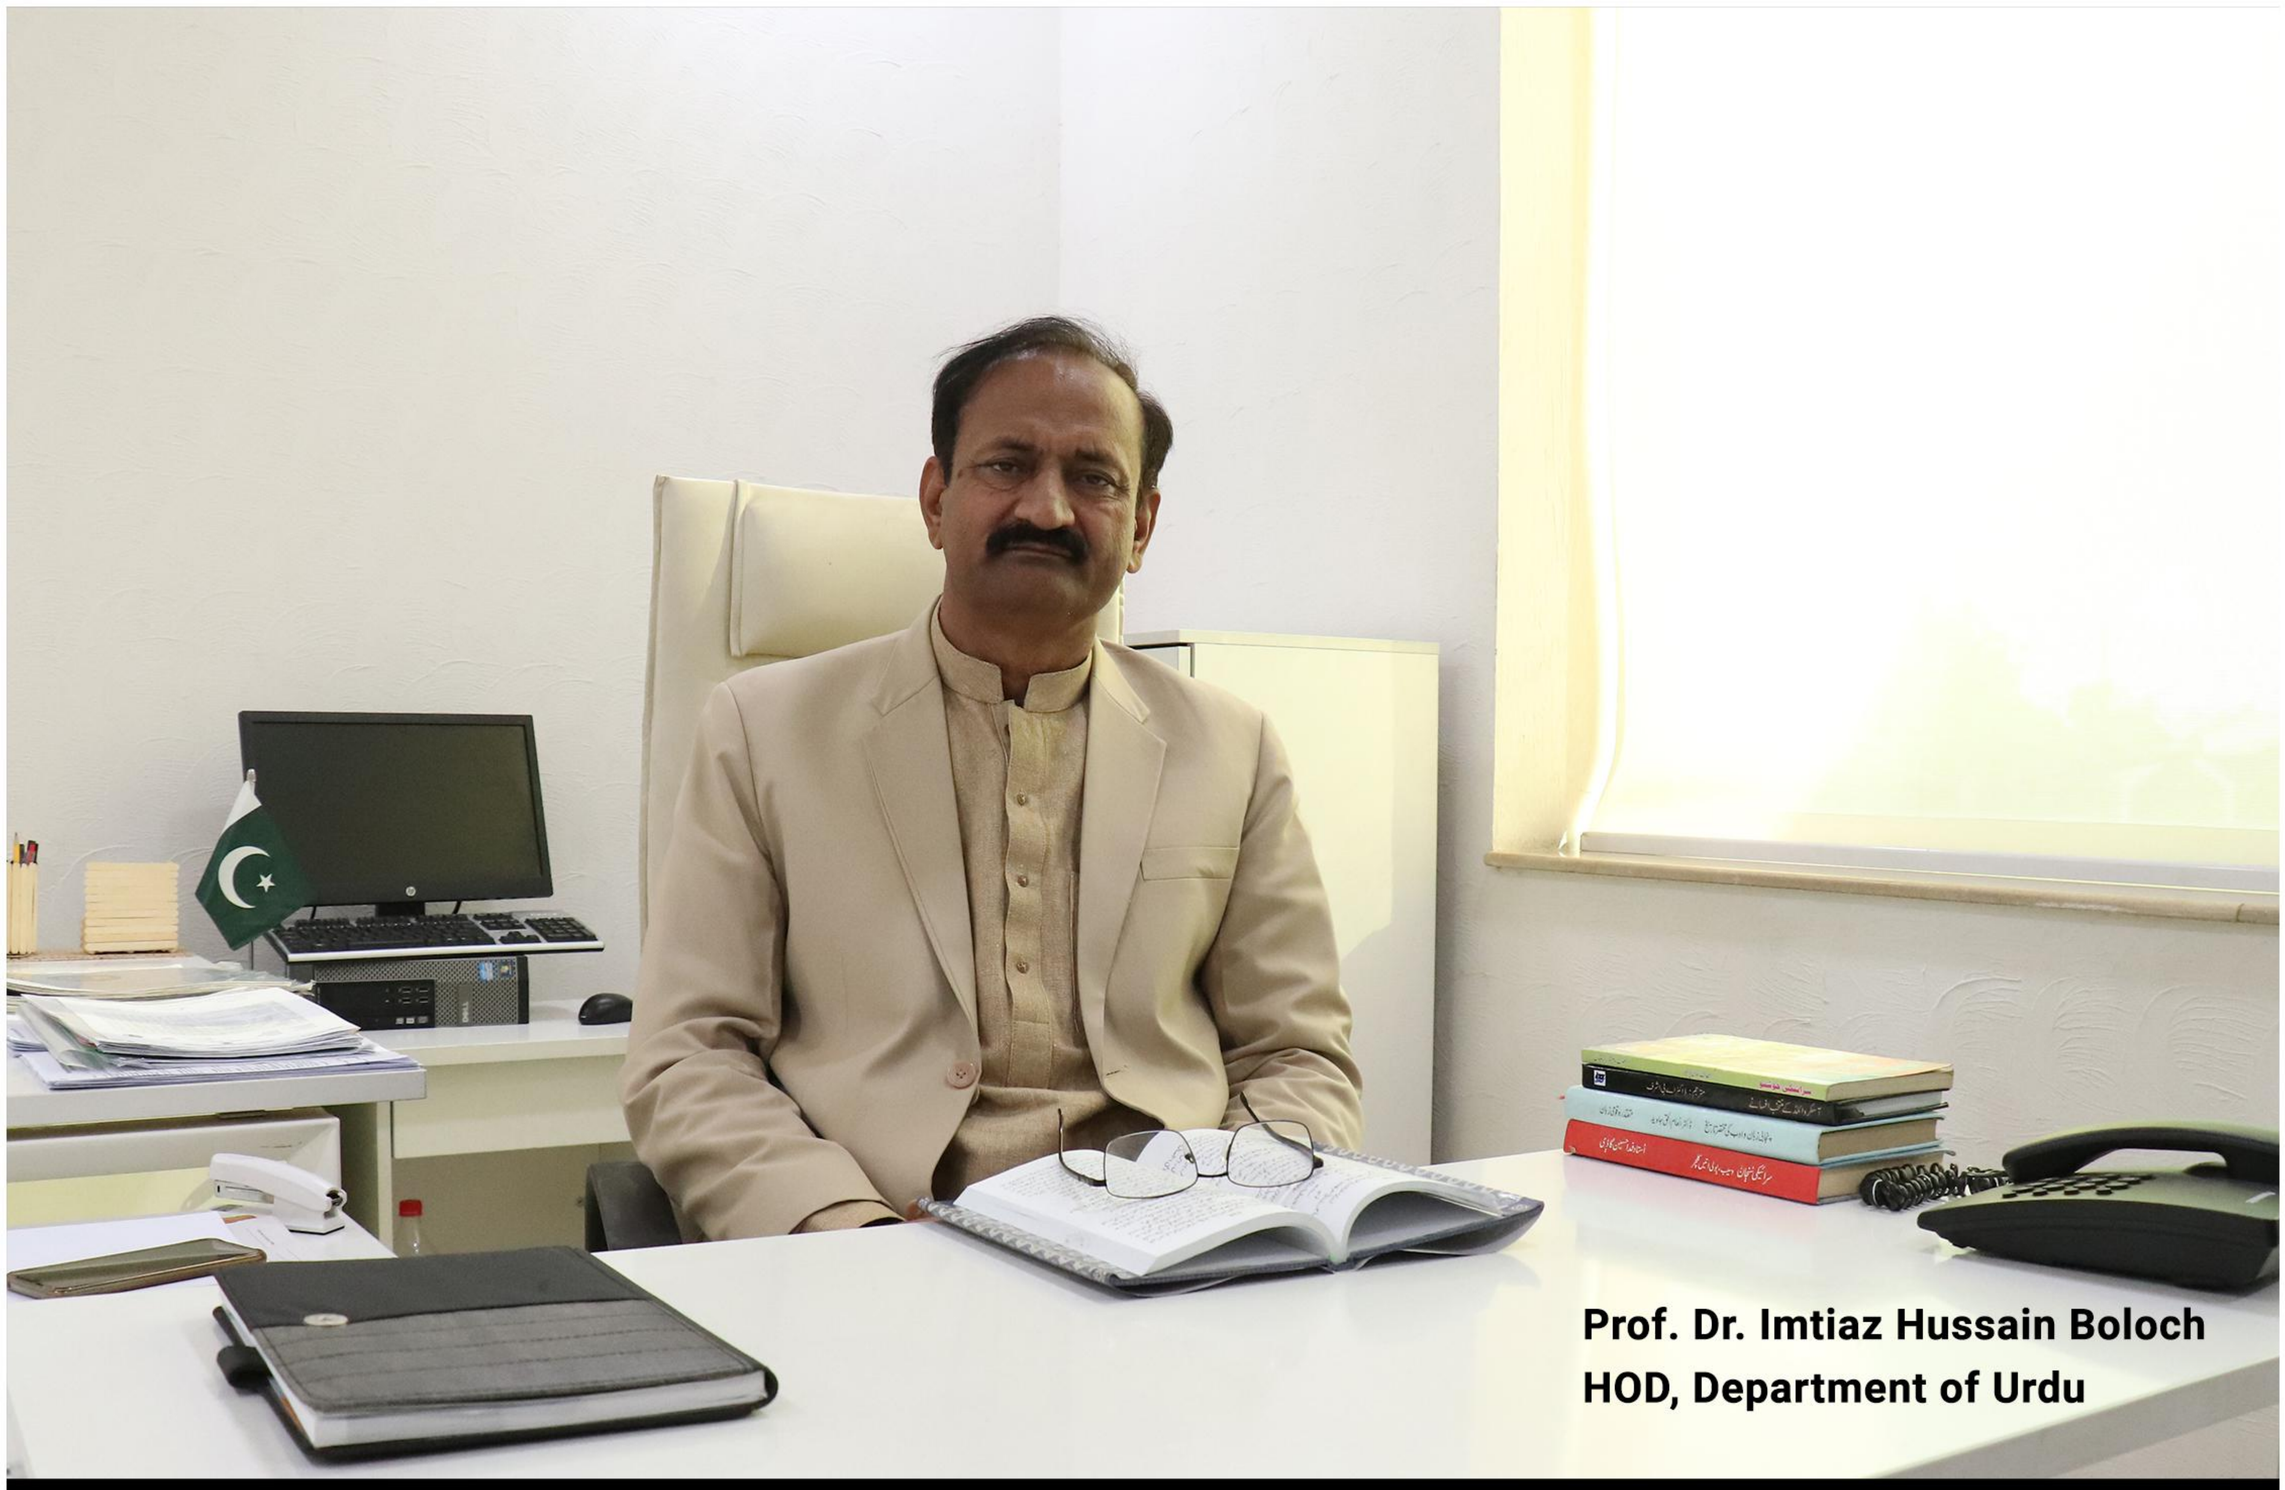
2. Have passed GAT Subject with 60% marks or ISP admission test with 70% marks
3. Have passed an interview conducted by the Department of Islamic Studies



Prof. Dr. Imtiaz Hussain Boloch
HOD, Department of Urdu

DEPARTMENT OF URDU

Departmental Introduction

To develop and provide literary scholars, Institute of Southern Punjab established The Department of Urdu in 2015. The department provides thorough knowledge and understanding of Urdu language and literature. The department's first batch had its classes started in the year 2016. In 2018 department of Urdu successfully produced its first a batch of eight literary M.Phil scholars. The programs offered by the department are structured on team based learning, class presentations, educational seminars and research work. These methods of study ensure and prepare students for future challenges and professional life.

Mission

Our mission is to enlighten the literary spirit in individuals and to prepare individuals that can make a positive impact in the society through words and wisdom.

Vision

Department of Urdu envisions to become the leading institution for Urdu literature and language in the region.

FACULTY OF HUMANITIES

Introdution

Finding its genesis in 2010 concurrently with the establishment of the ISP as approved by the Government of Punjab and recognized by the Higher Education Commission of Pakistan, The Department of English, being one of the pioneers of the academic specialism in the Institute, has been marching on since its inception vibrantly, off course, in conformity with its federal and provincial regulatory bodies catering efficiently to both its strands of linguistics and literary studies in line with national and international desiderata in both teaching and research. By virtue of its unique infrastructure equipped with all the state-of-art educational technology facilitated by about six permanent local and foreign qualified Ph.D. teachers in addition to about 3 adjunct Ph.D. teachers with rich experience of teaching and research pursuing a postmodern vision of higher education paying full attention to the promotion and publication of research via appropriate means with students accessing HEC channeled e-library and participating in a wide array of co-curricular activities provided elaborately by the ISP. The hallmark of the Department is its focus on grooming students in BS English and MPhil English according to the latest in the field, with active consideration of launching a Ph.D. in the near future.

The Department of English values committed teaching and supervision in an atmosphere of vigorous research and provides students with a flexible program of study. At M.Phil Level, research work is optional and students can take two extra subjects in lieu of research work. In addition to teaching students in the classes, the department also offers a wide range of activities in languages, literature and linguistics in the form of seminars, symposiums, conferences and workshops. Renowned scholars and outstanding researchers from national and international universities deliver their valuable talks on such academic occasions. Besides, these events provide opportunities to students to showcase their research in front of celebrated guests in the form of poster-presentations.

HOD,
Department of English

DEPARTMENT OF ENGLISH

Introdution

We are one of the leading centers of studies in English linguistics and literature in the region. We pride ourselves on the rich cultural and literary heritage of the region. We try to foster understanding of linguistics, literatures and cultures with local and global perspectives. We motivate students to explore the pleasures of reading and studying literature. We try to encourage our students to undertake study of linguistics and literature with new questions of language, society, culture, history, criticism, theory, and analysis. By teaching students about close reading, creative writing, literary interpretation, content analysis, discourse analysis, critical analysis, historical research, exploratory research and experimental research, our aim is to help students understand the power of language, conceptual innovation, argument, research, investigation, creative expression and multifarious aspects of communication. We offer a professional and congenial environment where we promote an appreciation of the richness and variety of texts in the language. Our programs offer myriad opportunities for intellectual growth and imaginative reasoning. We offer rigorous training in interpretive thinking and precise expression, teaching students to create ideas, organize them, draw deductions and make connections to new ideas, and articulate them in eloquent, expressive, fluent and convincing ways.

Our post-graduate programs feature the study of imaginative language, rhetoric and poetic and narrative arts. In the said programs our focus is on the roles of imaginative writing and presentations which play an important role in almost every aspects of human experience.

The Department of English values committed teaching and supervision in an atmosphere of vigorous research and provides students with a flexible program of study. At M.Phil Level, research work is optional and students can take two extra subjects in lieu of research work. In addition to teaching students in the classes, the department also offers a wide range of activities in languages, literature and linguistics in the form of seminars, symposiums, conferences and workshops. Renowned scholars and outstanding researchers from national and international universities deliver their valuable talks on such academic occasions. Besides, these events provide opportunities to students to showcase their research in front of celebrated guests in the form of poster-presentations.

Mission

The Department of English strives to provide the state-of-the-art education to students by developing an understanding of English language learning and teaching, linguistics and literature to promote research in all relevant fields which will lead our students to participate in society as active members, efficient researchers and responsible citizens.

Vision

The department seeks to foster knowledge and develop research culture among the students of undergraduate, graduate and postgraduate levels. The department provides students an exposure of modern learning in all areas with coherent and well-structured courses, qualified staff along with research-based seminars and conferences focusing on contemporary issues in the relevant areas of specialization.

FACULTY OF NATURAL SCIENCES
Department of Chemistry

Introduction

The Department of Chemistry fosters an environment of intellectual involvement focused on the physical sciences. Through the implementation of contemporary teaching methods in the classroom and fostering partnerships between students and faculty in research endeavors, the faculty aims to cultivate within all students a deep-seated curiosity in scientific exploration. This involves employing systematic, experimental, and computational methodologies to both create and examine materials pertinent to societal and natural contexts.

Vision

The Department of Chemistry has a comprehensive vision focused on fostering academic and professional growth within the field of Chemistry and its associated disciplines.

Mission

Our dedication is directed towards advancing research across various domains, spanning from sustainable energy technologies to the exploration of solutions for human diseases. Our primary commitment is to aid in the establishment of a sustainable society through the avenues of chemistry education, research, and service. This endeavor is realized through fostering interdisciplinary and international collaborative discoveries, providing mentorship and leadership, and generating economic impact via technology transfer and entrepreneurship.

FACULTY OF NATURAL SCIENCES

Department of Physics

Introduction

The Department of Physics is dedicated to providing high-quality education and research guidance to its students, with the overarching goal of benefiting the wider community. Faculty members within the Department are diligently working towards attaining excellence in their profession, harnessing their full potential to enhance the academic standards of the Institute. Currently, the department offers an undergraduate program. To align with the demands of the 21st century and broaden students' perspectives, the Department emphasizes activity-based learning approaches. By forging academic and research partnerships with both local and international institutions, the Department of Physics creates an enabling environment for the academic and professional growth of its students.

Vision

The Department of Physics is striving to elevate its national recognition in physics education and research, with the goal of becoming a premier institution for fostering proficient and passionate physicists.

Mission

The Department of Physics is committed to providing top-notch education and research guidance to its students, aiming to benefit the broader community. Every faculty member in the department is dedicated to achieving excellence in their profession, channeling their full potential towards enhancing the academic standards of the institute. Presently, the department offers an undergraduate program. To align with the demands of the 21st century and broaden students' perspectives, the department emphasizes activity-based learning. Through forging academic and research partnerships with both local and international institutions, the Department of Physics fosters an environment conducive to the academic and professional growth of its students.

BE A PART OF OUR COMMUNITY

At ISP we give you the support and the means to find out what you're good at and build on your strengths, to try new things, gain knowledge and skills, and grow in confidence. But we offer more than that. Joining us means becoming part of the Institute of Southern Punjab community. You'll have countless opportunities to get involved and make your own unique contribution to what we do.

"The opportunities are endless and the support in helping to achieve your goals, no matter what these may be, is provided throughout your courses".

We're fully committed to your future. So if you are too, we'll make sure you get the most out of what should be one of the best times of your life.

Thank you for choosing **ISP**
